Index of Authors

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

ABRAHAM, E. P. *see* BURTON, H. S. 168

ADAMS, D. H. Hormonal factors influencing liver catalase activity in mice. Testicular and adrenal factors 486

ALBERT, A. Quantitative studies of the avidity of naturally occurring substances for trace metals. 2. Amino-acids having three ionizing groups 690

ANGUIANO, G. *see* MCILWAIN, H. 12

ANNISON, E. F. & MORGAN, W. T. J. Studies in immunochemistry. 10. The isolation and properties of Lewis (Le^a) human blood-group substance 460

ANSELL, G. B. & DAWSON, R. M. C. Ethanolamine-*O*-phosphoric acid in rat brain 241

ANSELL, G. B., WILLIAMS, R. B. & RICHTER, D. Proteolysis in brain tissue xxix

APPELMANS, F. *see* BERTHET, J. 182

ARNOTT, D. G. & DONIACH, I. The effect of compounds allied to resorcinol upon the uptake of radioactive iodine (^{131}I) by the thyroid of the rat 473

ARNSTEIN, H. R. V. & NEUBERGER, A. Hippuric acid synthesis in the rat 154

ARNSTEIN, H. R. V. & NEUBERGER, A. The effect of vitamin B_{12} on the biosynthesis of choline methyl groups in the rat xxxviii

ASTRUP, T. The activation of a proteolytic enzyme in blood by animal tissue 5

AZOUZ, W. M., PARKE, D. V. & WILLIAMS, R. T. Studies in detoxication. 42. Fluorobenzene. Spectrophotometric determination of the elimination of unchanged halogenobenzenes by rabbits. A comparison of the oxidation *in vivo* of fluorobenzene and of benzene 702

BACON, J. S. D. Transfructosidation by a yeast invertase preparation xviii

BALMAIN, J. H., FOLLEY, S. J. & GLASCOCK, R. F. Isotope and respiration studies on *in vitro* fatty acid synthesis by mammary tissue: species differences in effects of insulin and glycerol xxix

BARNETT, A. J. G. The formation of lactic acid in grass-water mixtures i

BAYNE, S. The specificity of the toxic effect of D-glucosone on mice xxvii

BAYNE, S. *see also* MITCHELL, I. L. S. xxvii

*BEAVEN, G. H., HOLIDAY, E. R. & JOHNSON, E. A. The detection of chromatogram spots by means of ultra-violet radiation xxi

BEN-TOR, V. *see* WERTHEIMER, E. 573

BERTHET, J., BERTHET, L., APPELMANS, F. & DUVE, C. DE. Tissue fractionation studies. 2. The nature of the linkage between acid phosphatase and mitochondria in rat-liver tissue 182

BERTHET, J. & DUVE, C. DE. Tissue fractionation studies. 1. The existence of a mitrochondria-linked, enzymically inactive form of acid phosphatase in rat-liver tissue 174

BERTHET, L. *see* BERTHET, J. 182

BIRKINSHAW, J. H., MORGAN, E. N. & FINDLAY, W. P. K. Biochemistry of the wood-rotting fungi. 7. Metabolic products of *Polyporus benzoinus* (Wahl.) Fr. 509

BIRKINSHAW, J. H., RAISTRICK, H. & ROSS, D. J. Studies in the biochemistry of micro-organisms. 86. The molecular constitution of mycophenolic acid, a metabolic product of *Penicillium brevi-compactum* Dierckx. Part 3. Further observations on the structural formula for mycophenolic acid 630

BIRKINSHAW, J. H., RAISTRICK, H., ROSS, D. J. & STICKINGS, C. E. Studies in the biochemistry of micro-organisms. 85. Cyclopolic and cyclopaldic acids, metabolic products of *Penicillium cyclopium* Westling 610

BOUGHTON, B. W. & POLLOCK, M. R. Long-chain unsaturated fatty acids as essential bacterial growth factors. Further studies with *Corynebacterium* 'Q' xxxi

BOYLAND, E. & WILTSHIRE, G. H. The excretion of 1-naphthol and of 1:2-dihydroxy-1:2-dihydronaphthalene by rats injected with naphthalene xxxvii

BRAY, H. G., CLOWES, R. C., THORPE, W. V., WHITE, K. & WOOD, P. B. The fate of certain organic acids and amides in the rabbit. 13. Chloro- and fluoro-benzoic acids and amides 583

BROWN, R., JOHNSON, A. W., ROBINSON, E. & TYLER, G. J. The *Striga* germination factor. 2. Chromatographic purification of crude concentrates 596

BUFFA, P. *see* PETERS, R. A. xiii

BURTON, H. S. & ABRAHAM, E. P. Isolation of antibiotics from a species of *Cephalosporium*. Cephalosporins P_1, P_2, P_3, P_4 and P_5 168

BURTON, K. The L-amino-acid oxidase of *Neurospora* 258

BUSH, I. E. Methods of paper chromatography of steroids applicable to the study of steroids in mammalian blood and tissues 370

CALDWELL, P. C. A study of the phosphate esters in muscle by means of paper chromatography xxxv

CALLAWAY, S., DAVIES, D. R. & RISLEY, J. E. The regeneration of red cell and plasma cholinesterases in humans and dogs following poisoning by bis(*iso*-propylamino)fluorophosphine oxide xxx

CAMA, H. R., COLLINS, F. D. & MORTON, R. A. Studies in vitamin A. 16. Spectroscopic properties of all-*trans*-vitamin A and vitamin A acetate. Analysis of liver oils 48

CAMA, H. R., COLLINS, F. D. & MORTON, R. A. Correction procedure. *Appendix to* Studies in vitamin A. 16. Spectroscopic properties of all-*trans*-vitamin A and vitamin A acetate. Analysis of liver oils (Cama, H. R., Collins, F. D. & Morton, R. A.) 60

CAMPBELL, I. G. *see* PAYNE, P. R. 500

CAMPBELL, P. N. & WORK, T. S. Fractionation of the nitrogenous water-soluble constituents of liver. 1. The isolation of glycerylphosphorylethanolamine and of taurine 449

CHAIN, E. B. *see* PIRT, S. J. 716

CHANDA, R., CLAPHAM, H. M., MCNAUGHT, M. L. & OWEN, E. C. The digestibility of carotene by the cow and the goat as affected by thyroxine and thiouracil 95

CHANDA, R., CLAPHAM, H. M. & OWEN, E. C. The effect of thyroxine, thiouracil and stilboestrol on the metabolism of carotene and vitamin A in lactating goats iii

CHANDA, R. & OWEN, E. C. The effect of thyroxine and thiouracil on the composition of milk. 1. The partition of phosphorus in cow milk in relation to phosphatase and other constituents 100

CHANDA, R., OWEN, E. C. & WATTS, P. S. The effect of mastitis on the phosphatase and phosphorylated esters in cow's milk ii

Index of Subjects

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

Absorption spectrum of the ferricytochrome *c*-cyanide complex (Tsou, C. L.) 493
Acetate, effect on fat metabolism of diaphragm (Wertheimer, E. & Ben-Tor, V.) 573
Acetate, effect on metabolism of *Aerobacter aerogenes* (Tissières, A.) 279
Acetic acid analogue of thyroxine, synthesis of (Harington, C. R. & Pitt-Rivers, R.) 438
Acetic acid, formation by fermentation of carbohydrates by rumen bacteria (Heald, P. J.) 503
Acetic acid in blood and tissues, photometric micro-analytical estimation of (Ciaranfi, E. & Fonnesu, A.) 698
Acetic acid, micro-determination of (Reid, R. L. & Lederer, M.) 60
Acetic acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
Acetoacetate, effect on fat metabolism of diaphragm (Wertheimer, E. & Ben-Tor, V.) 573
Acetobacter acetigenum, formation of cellulose by (Kaushal, R., Walker, T. K. & Drummond, D. G.) 128
*Acetoin, enzymic formation of preparations from *Aerobacter aerogenes* and animal tissues (Spencer, C. P., Happold, F. C., Hullin, R. P. & Noble, R. L.) xx
Acetoin, formation by fermentation of carbohydrates by rumen bacteria (Heald, P. J.) 503
Acetoin, formation by *Lactobacillus arabinosus* (Nossal, P. M.) 591
*Acetoin, formation by washed cells of *Aerobacter aerogenes* (Spencer, C. P., Happold, F. C., Hullin, R. P. & Noble, R. L.) xx
*Acetoin, formation in the decerebrate cat (Dawson, J. & Hullin, R. P.) xx
Acetylation of silk fibroin derivatives (Elliott, D. F.) 542
'Acid' phosphatase action, kinetics of (Schønheyder, F.) 378
Acid phosphatase, linkage with mitochondria in rat-liver tissue (Berthet, J., Berthet, L., Appelmans, F. & Duve, C. de) 182
Acid secretion by gastric mucosa, effect of urea on (Davies, R. E. & Kornberg, H. P.) 119
Acids, branched-chain fatty, of butterfat (Hansen, R. P. & Shorland, F. B.) 207, 358
Acids, branched-chain fatty, of ox fat (Hansen, R. P., Shorland, F. B. & Cooke, N. J.) 581
Acids, fatty, separation and estimation by paper chromatography (Reid, R. L. & Lederer, M.) 60
Acids, organic, effect on the respiration of *Chlorella* (Eny, D. M.) 559
Acids, organic, fate in the rabbit (Bray, H. G., Clowes, R. C., Thorpe, W. V., White, K. & Wood, P. B.) 583
Acids, volatile fatty, determination in blood (Scarisbrick, R.) xxxiv
N-Acyl peptides, transformation to *O*-acyl in the degradation of silk fibroin (Elliott, D. F.) 542
O-Acyl peptides, transformation of *N*-acyl to, in the degradation of silk fibroin (Elliott, D. F.) 542
Adenine, assay of (Klenow, H.) 404
Adenine, behaviour with deoxyribose-transferring enzyme (Macnutt, W. S.) 384
Adenine, oxidation by xanthine oxidase (Klenow, H.) 404
Adenine, study of trans-*N*-glycosidase with (Kalckar, H. M., Macnutt, W. S. & Hoff-Jørgensen, E.) 397
Adenosine, degradation by enzymic preparations of *Lactobacillus helveticus* (Kalckar, H. M., Macnutt, W. S. & Hoff-Jørgensen, E.) 397
Adenosinediphosphate, spectrophotometric determination of (Slater, E. C.) vii
Adenosine-5-phosphatase, blood levels of (Dixon, T. F.) xxxii
Adenosine-5′-phosphate, use in histochemical determination of 5-nucleotidase (Pearse, A. G. E. & Reis, J. L.) 534
Adenosinetriphosphatase activity of brain (Gore, M. B. R.) 18
Adenosinetriphosphate, effect on respiration of *Chlorella* (Eny, D. M.) 559
Adenosinetriphosphate, spectrophotometric determination of (Slater, E. C.) vii
Adipose tissue, enzymes concerned in the synthesis of glycogen from glucose in (Creasey, N. H. & Gray, C. H.) 74
Adrenal factors influencing liver catalase level in mice (Adams, D. H.) 486
Adrenal glands, examination of extracts by paper partition chromatography (Bush, I. E.) 370
Adrenalectomy, influence on liver catalase activity in mice (Adams, D. H.) 486
Aerobacter aerogenes, cytochrome system of the respiration of (Tissières, A.) 279
**Aerobacter aerogenes*, formation of acetoin and 2:3-butylene glycol by washed cells of (Spencer, C. P., Happold, F. C., Hullin, R. P. & Noble, R. L.) xx
Aerobic glycolysis of tissues, effect of electrical stimulation *in vitro* (Kratzing, C. C.) 253
Aldohexoses, oxidation by notatin (Keilin, D. & Hartree, E. F.) 331
Alga *Chlorella vulgaris*, proteins of (Fowden, L.) 355
Aliphatic esters, hydrolysis by cobra venom cholinesterase (Mounter, L. A.) 122
Alligator mississippiensis, bile salts of (Haslewood, G. A. D.) xxxv
Alumina paper, use for the chromatography of steroids (Bush, I. E.) 370
Amidase, inhibition by diethyl *p*-nitrophenyl phosphate (Hartley, B. S. & Kilby, B. A.) 672
Amides, organic, fate in the rabbit (Bray, H. G., Clowes, R. C., Thorpe, W. V., White, K. & Wood, P. B.) 583
Amine oxidase in plants (Kenten, R. H. & Mann, P. J. G.) 360
Amine oxidase, localization in the liver cell (Hawkins, J.) 577
Amines, mono- and di-, oxidation of, by plant extracts (Kenten, R. H. & Mann, P. J. G.) 360
Amino groups, terminal, of insulin, reactivity with reducing sugars (Schwartz, H. M. & Lea, C. H.) 713
Amino-acid composition of basic nuclear proteins (Eadie, E. J. & Leaf, G.) xxxiv
Amino-acid composition of the protein fraction of *Chlorella vulgaris* (Fowden, L.) 355
Amino-acid esterase, inhibition by *p*-nitrophenyl phosphate (Hartley, B. S. & Kilby, B. A.) 672
Amino-acids as sole nitrogen source for growth of *Escherichia coli* (Dawes E. A.) v
Amino-acids, assimilation by *Micrococcus pyogenes* var. *aureus* (Gale, E. F. & van Halteren, M. B.) 34

Amino-acids having three ionizing groups, avidity for trace metals (Albert, A.) 690
Amino-acids in Lewis blood-group substance (Annison, E. F. & Morgan, W. T. J.) 460
Amino-acids required for amylase synthesis (Hokin, L. E.) 216
4-Aminoglyoxaline-5-carbonamide, behaviour with deoxyribose-transferring bacterial enzyme (Macnutt, W. S.) 384
Aminophenols from nitrobenzene in the rabbit (Robinson, D., Smith, J. N. & Williams, R. T.) 228
'Amorphous fraction' of adrenal extracts, examination of (Bush, I. E.) 370
Amylase synthesis, amino-acid requirements of (Hokin, L. E.) 216
Amylases, determination of isoelectric point with suramin (Wills, E. D.) 421
Amylose, electrophoretic fractionation of hydrolysis products of (Mould, D. L. & Synge, R. L. M.) xi
Anaemia, pernicious, action of heated mixtures of vitamin B_{12} and gastric juice on (Spray, G. H.) 587
Anisaldehyde, a metabolic product of *Polyporus benzoinus* (Birkinshaw, J. H., Morgan, E. N. & Findlay, W. P. K.) 509
Anomalies in partition chromatography (Lester Smith, E.) xxxvi
Anomeric forms of glucose, oxidation by notatin (Keilin, D. & Hartree, E. F.) 331
Anthrone reaction in determination of the total carbohydrate of baker's yeast (Trevelyan, W. E. & Harrison, J. S.) 298
Antibacterial activity of the triterpenoid acid (polyporenic acid *C*) and of ungulinic acid (Marcus, S.) 516
Antibiotics, isolation from a species of *Cephalosporium* (Burton, H. S. & Abraham, E. P.) 168
Antibodies, non-available water in precipitates formed by (Marrack, J. R., Grant, R. A. & Johns, R. G. S.) xvii
Antifungal activity of cyclopolic and cyclopaldic acids (Smith, G.) 629
Antigens, non-available water in precipitates formed by (Marrack, J. R., Grant, R. A. & Johns, R. G. S.) xvii
Antithyroid compounds, action on the uptake of radioactive iodine by the thyroid of the rat (Arnott, D. G. & Doniach, I.) 473
Arginine, citrulline as an intermediate in the breakdown by *Streptococcus faecalis* (Knivett, V. A.) xxx
Aromatic oxidative metabolism of certain benzene ring compounds by soil bacteria (Smith, B. S. W., Jones, J. D. & Evans, W. C.) xxviii
Ascobolus furfuraceous, absence of polyenes in cultures of (Goodwin, T. W.) 550
Asperula odorata, accumulation and utilization of asperuloside in (Trim, A. R.) 319
Asperuloside, accumulation and utilization in Rubiaceae (Trim, A. R.) 319
Asperuloside, preparation and properties of (Trim, A. R. & Hill, R.) 310
Assay of B vitamins, modified medium for *Lactobacillus casei* for (Clegg, K. M., Kodicek, E. & Mistry, S. P.) 326
Astaxanthin in developing salmon eggs (Glover, M., Morton, R. A. & Rosen, D. G.) 425
Aucubin, preparation and properties of (Trim, A. R. & Hill, R.) 310
Autoxidation of phospholipins (Lea, C. H. & Hawke, J. C.) 67
Avidity of naturally occurring substances for trace metals (Albert, A.) 690
Azide, effect on metabolism of *Aerobacter aerogenes* (Tissières, A.) 279
Azide, inhibition of synthesis of cell carbohydrates during glucose fermentation by (Trevelyan, W. E., Gammon, J. N., Wiggins, E. H. & Harrison, J. S.) 303
Bacillus coli see Escherichia coli
Bacteria from the rumen contents of sheep, fermentation of pentoses and uronic acids by (Heald, P. J.) 503
Bacteria, reduction of dehydroascorbic acid by (Eddy, B. P.) 601
Bacteria, soil, aromatic oxidative metabolism of certain benzene ring compounds by (Smith, B. S. W., Jones, J. D. & Evans, W. C.) xxviii
Bacteria, synthesis of lysine by during incubation of rumen contents *in vitro* (McNaught, M. L.) i
Bacterial growth, long-chain unsaturated fatty acids essential for (Boughton, B. W. & Pollock, M. R.) xxxi
Bacterium typhosum, virulence enhancement of (Smith, H., Harris-Smith, P. W. & Stanley, J. L.) 211
Barium ions and coagulation of plasma (Lovelock, J. E. & Porterfield, B. M.) 415
Barley, fructosans of (Porter, H. K. & Edelman, J.) xxxiii
Benzaldehyde, formation by oxidation of phenylacetic acid by *Penicillium chrysogenum* Q 176 (Hockenhull, D. J. D., Walker, A. D., Wilkin, G. D. & Winder, F. G.) 605
Benzene, comparison of oxidation *in vivo* with that of fluorobenzene (Azouz, W. M., Parke, D. V. & Williams, R. T.) 702
Benzene, polycarboxylic acid derivative, mycophenolic acid as (Birkinshaw, J. H., Raistrick, H. & Ross, D. J.) 630
Benzene ring compounds, aromatic oxidative metabolism by soil bacteria (Smith, B. S. W., Jones, J. D. & Evans, W. C.) xxviii
Benzoic acid, conjugation with glycine in rat (Arnstein, H. R. V. & Neuberger, A.) 154
Benzoic acid derivatives of dihydrogladiolic acid (Raistrick, H. & Ross, D. J.) 635
Benzoic acids, halogen substitution of (Bray, H. G., Clowes, R. C., Thorpe, W. V., White, K. & Wood, P. B.) 583
Benzoic acids, hexa-substituted, from *Penicillium cyclopium* (Birkinshaw, J. H., Raistrick, H., Ross, D. J. & Stickings, C. E.) 610
1:4-Benzoquinone-2-acetic acid, paper chromatography and ultraviolet absorption spectra of (Consden, R., Forbes, H. A. W., Glynn, L. E. & Stanier, W. M.) 274
DL-*O*-Benzoyl*allo*threonine ethyl ester, picrate of (Elliott, D. F.) 542
DL-*O*-Benzoylserine, acetylation of (Elliott, D. F.) 542
Bicarbonate ion and muscle potassium (Creese, R.) xviii
Bile salts of the European frog, *Rana temporaria* and of *Alligator mississippiensis* (Haslewood, G. A. D.) xxxv
Biotin, assay using *Lactobacillus casei* (Clegg, K. M., Kodicek, E. & Mistry, S. P.) 326
Bis(*iso*propylamino)fluorophosphine oxide, regeneration of red cell and plasma cholinesterases in humans and dogs following poisoning by (Callaway, S., Davies, D. R. & Risley, J. E.) xxx
Blood, activation by animal tissue of a proteolytic enzyme in (Astrup, T.) 5
Blood clotting, function of electrolytes and of calcium (Lovelock, J. E. & Porterfield, B. M.) 415
Blood corpuscles, red *see* Erythrocytes
Blood, determination of haemoglobin in, by abridged photoelectric spectrophotometry (Nicholas, J. W.) 1
Blood, determination of volatile fatty acids in (Scarisbrick, R.) xxxiv
Blood-group substance, human, immunochemistry of (Annison, E. F. & Morgan, W. T. J.) 460
Blood levels of 5-nucleotidase (adenosine-5-phosphatase) (Dixon, T. F.) xxxii
Blood, mammalian, methods of paper chromatography applicable to the study of steroids in (Bush, I. E.) 370
Blood, photometric micro-analytical estimation of acetic acid in (Ciaranfi, E. & Fonnesu, A.) 698

Blood sugar, colour fading in the Folin and Wu estimation of (Lehmann, H. & Silk, E.) xxxi
Bone, collagen content of (Rogers, H. J., Weidmann, S. M. & Parkinson, A.) 537
Bovine serum albumin, behaviour at the liquid-liquid interface (Cheesman, D. F.) 667
Brain, actions of electrical stimulation and of 2:4-dinitrophenol on the phosphates in sections of (McIlwain, H. & Gore, M. B. R.) 24
Brain, adenosinetriphosphatase of (Gore, M. B. R.) 18
§Brain constituents in central activity, changes in (Richter, D.) xxiv
Brain, hexokinase activity of (Long, C.) 407
Brain, inorganic pyrophosphatase of (Gore, M. B. R.) 18
Brain, metabolism of glucose by, electrical stimulation of (McIlwain, H., Anguiano, G. & Cheshire, J. D.) 12
Brain, rat, ethanolamine-*O*-phosphoric acid in (Ansell, G. B. & Dawson, R. M. C.) 241
Brain tissue, proteolysis of (Ansell, G. B., Williams, R. B. & Richter, D.) xxix
Branched-chain fatty acids of butterfat (Hansen, R. P. & Shorland, F. B.) 207, 358
Brilliant cresyl blue in oxidation of phosphoric esters of carbohydrates, etc. (Dickens, F. & Glock, G. E.) 81
Bromide, organically bound, analysis of (Pirt, S. J. & Chain, E. B.) 716
Bromobenzene, elimination unchanged in expired air after administration to rabbits (Azouz, W. M., Parke, D. V. & Williams, R. T.) 702
Buddleia globosa, isolation of aucubin from (Trim, A. R. & Hill, R.) 310
Burette, recording, for titrations (James, A. T. & Martin, A. J. P.) 679
Butterfat, branched-chain fatty acids of (Hansen, R. P. & Shorland, F. B.) 358
Butterfat, presence of C_{17} acids in (Hansen, R. P. & Shorland, F. B.) 207
Butylene, formation by fermentation of carbohydrates by rumen bacteria (Heald, P. J.) 503
*2:3-Butylene glycol, formation in the decerebrate cat (Dawson, J. & Hullin, R. P.) xx
*2:3-Butylene glycol, formation by washed cells of *Aerobacter aerogenes* (Spencer, C. P., Happold, F. C., Hullin, R. P. & Noble, R. L.) xx
Butyric acid, micro-determination of (Reid, R. L. & Lederer, M.) 60
Butyric acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
*iso*Butyric acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
Byssochlamys fulva, pectic enzymes of the fungus (Reid, W. W.) 289

C_{17} acids, *iso* and *ante-iso* (Hansen, R. P. & Shorland, F. B.) 207
Cacao, polyphenolic substances of, changes in during fermentation (Forsyth, W. G. C.) iii
Cadaverine, oxidation by plant amine oxidase (Kenten, R. H. & Mann, P. J. G.) 360
Calcification of mid-femur samples of human bone (Rogers, H. J., Weidmann, S. M. & Parkinson, A.) 537
Calcium, function in blood clotting (Lovelock, J. E. & Porterfield, B. M.) 415
Calcium ions and coagulation of plasma (Lovelock, J. E. & Porterfield, B. M.) 415
Calcium ions, inhibition of adenosinetriphosphatase by (Gore, M. B. R.) 18
Calcium/nitrogen ratio in bone (Rogers, H. J., Weidmann, S. M. & Parkinson, A.) 537
Calcium pantothenate, assay using *Lactobacillus casei* (Clegg, K. M., Kodicek, E. & Mistry, S. P.) 326
Caproic acid *see* Hexanoic acid
§Carbohydrate metabolism of nervous tissues (Coxon, R. V.) xxiii
Carbohydrate, oxidation in tea minces (Roberts, E. A. H. & Wood, D. J.) 292
Carbohydrates, cell, fractionation and micro-determination of (Trevelyan, W. E. & Harrison, J. S.) 298
Carbohydrates, cell, synthesis during glucose fermentation and its inhibition by azide (Trevelyan, W. E., Gammon, J. N., Wiggins, E. H. & Harrison, J. S.) 303
Carbohydrates of human cerebrospinal fluid (Eastham, M. D. & Keay, K. R.) iv
Carbon dioxide, formation from glucose by yeast (Trevelyan, W. E., Gammon, J. N., Wiggins, E. H. & Harrison, J. S.) 303
Carbon dioxide, origin in the fermentation process in tea manufacture (Roberts, E. A. H. & Wood, D. J.) 292
Carbonic anhydrases, determination of isoelectric point with suramin (Wills, E. D.) 421
Carbonic anhydrases, function in the stomach (Davies, R. E. & Edelman, J.) 190
Carbonic anhydrases, observations on the zinc in (Tupper, R., Watts, R. W. E. & Wormall, A.) 429
Carboxylase activity of yeast, effect of cocaine on (Ryman, B. E. & Walsh, E. O'F.) 570
Carboxylic acids, straight-chain, degradation of (Hunter, G. D. & Popják, G.) 163
Carcinoma, rat liver, enzymes of (Dickens, F. & Glock, G. E.) 81
Carotene, absorption and metabolism in lactating cows and goats given thyroxine and thiouracil (Chanda, R., Clapham, H. M., McNaught, M. L. & Owen, E. C.) 95
Carotene, effect of thyroxine, thiouracil and stilboestrol on the metabolism in lactating goats (Chanda, R., Clapham, H. M. & Owen, E. C.) iii
Carotene, formation by *Phycomyces blakesleeanus* (Glover, J., Goodwin, T. W. & Lijinsky, W.) x; (Goodwin, T. W. & Lijinsky, W.) 268
γ-Carotene in *Phycomyces blakesleeanus* (Goodwin, T. W.) 550
ζ-Carotene in *Phycomyces blakesleeanus* (Goodwin, T. W.) 550
Carotenogenesis, studies in (Goodwin, T.W.) 550; (Goodwin, T. W. & Lijinsky, W.) 268
Carrier P in experiments with ^{32}P (Ennor, A. H. & Rosenberg, H.) 524
Casein, variation in phosphorus content of (Chanda, R. & Owen, E. C.) 100
Catalase, liver, influence of hormonal factors on activity in mice (Adams, D. H.) 486
Catalases, determination of isoelectric point with suramin (Wills, E. D.) 421
Cattle, determination of serum protein levels in (Garner, R. J.) 439
Cellobiose, fermentation by bacteria (Heald, P. J.) 503
Cellulose, bacterial, formation and structure of (Kaushal, R., Walker, T. K. & Drummond, D. G.) 128
§Central activity, changes in brain constituents in (Richter, D.) xxiv
Central nervous system, human, cholinesterases of (Ord, M. G. & Thompson, R. H. S.) xxxii
§Central nervous system, lipids of (Sloane Stanley, G. H.) xxiv
Central nervous system, metabolic investigation of small portions of (McIlwain, H.) 132
§Central nervous system, phosphates and nucleotides of (McIlwain, H.) xxiv
Centrifugal fractions of acid phosphatase of liver homogenates (Berthet, J. & Duve, C. de) 174
Cephalosporins P_1, P_2, P_3, P_4 and P_5 (Burton, H. S. & Abraham, E. P.) 168

Cerebrospinal fluid, human, carbohydrates of (Eastham, M. D. & Keay, K. R.) iv
Chlorella, composition of the bulk proteins of (Fowden, L.) 355
Chlorella, effect of organic acids, inhibitors and enzymes on the respiration of (Eny, D. M.) 559
Chloride, organically bound, analysis of (Pirt, S. J. & Chain, E. B.) 716
Chlorobenzene, elimination unchanged in expired air after administration to rabbits (Azouz, W. M., Parke, D. V. & Williams, R. T.) 702
Chlorobenzoic acids and amides (Bray, H. G., Clowes, R. C., Thorpe, W. V., White, K. & Wood, P. B.) 583
Cholesterol in developing salmon eggs (Glover, M., Morton, R. A. & Rosen, D. G.) 425
Choline methyl groups in the rat, effect of vitamin B_{12} on the biosynthesis of (Arnstein, H. R. V. & Neuberger, A.) xxxviii
Cholinesterase of cobra venom (Mounter, L. A.) 122
Cholinesterases of the human central nervous system (Ord, M. G. & Thompson, R. H. S.) xxxii
Cholinesterases, red cell and plasma, regeneration in humans and dogs following poisoning by bis(*iso*propylamino) fluorophosphine oxide (Callaway, S., Davies, D. R. & Risley, J. E.) xxx
D-Chondrosamine in Lewis blood-group substance (Annison, E. F. & Morgan, W. T. J.) 460
*Chromatogram spots, determination by means of ultraviolet radiation (Beaven, G. H., Holiday, E. R. & Johnson, E. A.) xxi
Chromatography, gas-liquid partition (James, A. T. & Martin, A. J. P.) 679
Chromatography on kieselguhr (Mills, G. T.) 707
Chromatography, paper, methods applicable to the study of steroids in mammalian blood and tissues (Bush, I. E.) 370
Chromatography, paper, of nitrophenols (Robinson, D., Smith, J. N. & Williams, R. T.) 221
Chromatography, paper, study of the phosphate esters in muscle by means of (Caldwell, P. C.) xxxv
Chromatography, partition, anomalies in (Lester Smith, E.) xxxvi
Chromatography, partition, of nitrophenols (Robinson, D., Smith, J. N. & Williams, R. T.) 228
Chromatography, preparative, simple automatic fraction collector for (Edelman, J. & Martin, R. V.) xxi
Chymotrypsin, action on insulin (Phillips, D. M. P.) 479
Chymotrypsin, inhibition by *p*-nitrophenyl phosphate (Hartley, B. S. & Kilby, B. A.) 672
Citrate ions, activity in preventing coagulation (Lovelock, J. E. & Porterfield, B. M.) 415
Citrate metabolism, isolation of a crystalline inhibitor of (Peters, R. A., Wakelin, R. W. & Buffa, P.) xiii
Citric acid cycle in mammary gland (Terner, C.) 145
Citrulline as an intermediate in the breakdown of arginine by *Streptococcus faecalis* (Knivett, V. A.) xxx
Clotting, blood, function of electrolytes and of calcium (Lovelock, J. E. & Porterfield, B. M.) 415
Cobalamin *see* Vitamin B_{12}
Cobalamins, structure and stability of (Lester Smith, E.) xxxvi
Cobalt, avidity of amino-acids for (Albert, A.) 690
Cocaine, effect on the metabolism of *Saccharomyces cerevisiae* (Ryman, B. E. & Walsh, E. O'F.) 570
Coenzyme I, effect on oxygen uptake of *Chlorella* (Eny, D. M.) 559
Coenzyme I in oxidation of phosphoric esters of carbohydrates, etc. (Dickens, F. & Glock, G. E.) 81
Coenzyme II in oxidation of phosphoric esters of carbohydrates, etc. (Dickens, F. & Glock, G. E.) 81
Collagen content of bone (Rogers, H. J., Weidmann, S. M. & Parkinson, A.) 537
Concentration of biological extracts for paper chromatography of steroids (Bush, I. E.) 370
Congenital porphyria, porphyrins excreted in the urine by a case of (Rimington, C. & Miles, P. A.) 202
Connective tissue fibrinoid in rheumatic fever, chemistry of (Consden, R., Glynn, L. E. & Stanier, W. M.) xix
Copper, action on autoxidation of phospholipin (Lea, C. H. & Hawke, J. C.) 67
Copper, avidity of amino-acids for (Albert, A.) 690
Copper, effect on fluorescence and ultraviolet absorption of micrococcin (Heatley, N. G. & Doery, H. M.) 247
Coprecipitation of inorganic phosphate and organophosphates (Ennor, A. H. & Rosenberg, H.) 524
Cortex, cerebral, electrical stimulation of the metabolism of glucose by (McIlwain, H., Anguiano, G. & Cheshire, J. D.) 12
Cortex, cerebral, of guinea pig, effect of electrical stimulation on (Kratzing, C. C.) 253
Cortisone, influence on liver catalase activity in mice (Adams, D. H.) 486
Corynebacterium 'Q', long-chain unsaturated fatty acids essential for the growth of (Boughton, B. W. & Pollock, M. R.) xxxi
Cow, lactating, effect of thyroxine and thiouracil on the carotene metabolism in (Chanda, R., Clapham, H. M., McNaught, M. L. & Owen, E. C.) 95
Cow milk, effects of thyroxine and thiouracil injections on (Chanda, R. & Owen, E. C.) 100
Cow's milk, effect of mastitis on the phosphatase and phosphate esters in (Chanda, R., Owen, E. C. & Watts, P. S.) ii
Cozymase, effect on malic decarboxylase (Nossal, P. M.) 349
Creatine phosphate of brain, effect of electrical stimulation on (McIlwain, H. & Gore, M. B. R.) 24
Cupric ions, combination with glycylglycine and diglycylglycine (Dobbie, H., Kermack, W. O. & Lees, H.) v
Cyanide, inhibition of *Chlorella* by (Eny, D. M.) 559
Cyanide ion, reaction with ferricytochrome *c* (George, P. & Tsou, C. L.) 440
Cyanide-ferricytochrome *c* complex, absorption spectrum of (Tsou, C. L.) 493
Cyclopaldic acid, metabolic product of *Penicillium cyclopium* Westling (Birkinshaw, J. H., Raistrick, H., Ross, D. J. & Stickings, C. E.) 610; (Raistrick, H. & Ross D., J.) 635
Cyclopolic acid, metabolic product of *Penicillium cyclopium* Westling (Birkinshaw, J. H., Raistrick, H., Ross, D. J. & Stickings, C. E.) 610; (Raistrick, H. & Ross, D. J.) 635
L-Cystine labelled with ^{35}S, biosynthesis of (Williams, R. B. & Dawson, R. M. C.) xxi
Cytochrome *c*, exogenous and endogenous (Tsou, C. L.) 493
Cytochrome *c*, lack of action on autoxidation of phospholipins (Lea, C. H. & Hawke, J. C.) 67
Cytochrome *c*, reaction with cyanide (George, P. & Tsou, C. L.) 440
Cytochrome oxidase, effect on oxygen uptake of *Chlorella* (Eny, D. M.) 559
Cytochrome system of the respiration of *Aerobacter aerogenes* (Tissières, A.) 279
Cytosine, deoxyriboside from by enzymic transfer (Macnutt, W. S.) 384

Daphniphyllum macropodum (Euphorbiaceae), isolation of asperuloside from (Trim, A. R. & Hill, R.) 310
Decanoic acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 67
Decarboxylase, malic, of *Lactobacillus arabinosus*, estimation of L-malate and fumarate by (Nossal, P. M.) 349

Dehydroascorbic acid, reduction by bacteria (Eddy, B. P.) 601
7-Dehydrocholesterol, absence from developing salmon eggs (Glover, M., Morton, R. A. & Rosen, D. G.) 425
Dehydrogenase system of *Chlorella* (Eny, D. M.) 559
Dehydrogenases as hydrogen donators for dehydroascorbic acid (Eddy, B. P.) 601
Deoxyribonucleic acid, microbiological assay of (Hoff-Jørgensen, E.) 400
Deoxyriboside, transfer of purine or pyrimidine groups by bacterial enzyme (Macnutt, W. S.) 384
Deoxyribosides, microbiological assay of (Hoff-Jørgensen, E.) 400
Deoxyribosyl group, transfer by bacterial enzymes (Macnutt, W. S.) 384
Deoxyribosyl group, transfer from one purine or pyrimidine to another, catalysis by enzyme preparations from *Lactobacillus helveticus* (Macnutt, W. S.) 384
Deposition of biological extracts for paper chromatography of steroids (Bush, I. E.) 370
Detoxication, studies in (Azouz, W. M., Parke, D. V. & Williams, R. T.) 702
α:γ-Diaminobutyric acid, ionization of (Albert, A.) 690
α:β-Diaminopropionic acid, ionization of (Albert, A.) 690
2:6-Diaminopurine, behaviour with deoxyribose transferring enzyme (Macnutt, W. S.) 384
Diaphragm, rat, effect of electrical stimulation on (Kratzing, C. C.) 253
2:6-Dichlorophenolindophenol in oxidation of phosphoric esters of carbohydrates, etc. (Dickens, F. & Glock, G. E.) 81
Diethyl *p*-nitrophenyl phosphate, inhibition of chymotrypsin by (Hartley, B. S. & Kilby, B. A.) 672
Diffusion of oxygen into medium and growth of *Lactobacillus leichmanii* (Lees, K. A. & Tootill, J. P. R.) 455
Digestibility of carotene by cows and goats given thyroxine and thiouracil (Chanda, R., Clapham, H. M., McNaught, M. L. & Owen, E. C.) 95
Diglycylglycine, combination of cupric ions with (Dobbie, H., Kermack, W. O. & Lees, H.) v
Dihydrogladiolic acid, metabolic product of *Penicillium gladioli* Machacek (Raistrick, H. & Ross, D. J.) 635
2:8-Dihydroxyadenine, formation from adenine by oxidation with xanthine oxidase (Klenow, H.) 404
1:2-Dihydroxy-1:2-dihydronaphthalene, excretion by rats injected with naphthalene (Boyland, E. & Wiltshire, G. H.) xxxvii
3:5-Diiodo-4-(3′:5′-diiodo-4′-hydroxyphenoxy)phenylacetic acid, synthesis of (Harington, C. R. & Pitt-Rivers, R.) 438
Di*iso*propylfluorophosphonate, behaviour with insulin (Phillips, D. M. P.) 479
2:3-Dimercaptopropanol, effect on fluorescence and ultraviolet absorption of micrococcin (Heatley, N. G. & Doery, H. M.) 247
αα-Dimethylpropionic acid (pivalic acid, trimethylacetic acid), micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
Dinitrobenzene derivatives of amino-acids (Mills, G. T.) 707
4:6-Dinitro-*o*-cresol, fate in the rabbit (Smith, J. N., Smithies, R. H. & Williams, R. T.) xxxvii
2:4-Dinitrophenol, action on the phosphates in sections of mammalian brain *in vitro* (McIlwain, H. & Gore, M. B. R.) 24
2:4-Dinitrophenol, effect on respiration of mammary gland (Terner, C.) 145
Dissociation of proteins on spreading (Cheesman, D. F.) 667
Dissociation, reversible, of insulin (Gutfreund, H.) 564
Dodecanoic acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679

E 600 *see* Diethyl *p*-nitrophenyl phosphate
Electrical stimulation, action on the phosphates in sections of mammalian brain *in vitro* (McIlwain, H. & Gore, M. B. R.) 24
Electrical stimulation, metabolic effects on mammalian tissues *in vitro* (Kratzing, C. C.) 253
Electrical stimulation of metabolism of glucose by mammalian cerebral cortex (McIlwain, H., Anguiano, G. & Cheshire, J. D.) 12
Electrical stimulation of metabolism of slices of cerebral cortex (McIlwain, H.) 132
Electrolytes and dissociation of insulin (Gutfreund, H.) 564
Electrolytes, function in blood clotting (Lovelock, J. E. & Porterfield, B. M.) 415
Electron micrographs of bacterial cellulose (Kaushal, R., Walker, T. K. & Drummond, D. G.) 128
Electrophoresis and suramin inhibition, comparison of methods of determining the isoelectric points of enzymes (Wills, E. D.) 421
Electrophoresis of Lewis blood-group substance (Kekwick, R. A.) 471
Electrophoretic fractionation of hydrolysis products of amylose and starch (Mould, D. L. & Synge, R. L. M.) xi
Enamel, dental, organic constituents of (Stack, M. V.) xxxix
Enzyme inhibition by suramin (Wills, E. D.) 421
Enzymes, effect on the respiration of *Chlorella* (Eny, D. M.) 559
Enzymes, inactivation of, at interfaces (Mounter, L. A.) 122
Enzymes, pectic, of the fungus *Byssochlamys fulva* (Reid, W. W.) 289
Ergothioneine, determination of (Heath, H., Rimington, C., Searle, C. E. & Lawson, A.) 530
Ergothioneine, effect of administration to rats (Heath, H., Rimington, C., Searle, C. E. & Lawson, A.) 530
Erythrocytes, ergothioneine in after administration to rats (Heath, H., Rimington, C., Searle, C. E. & Lawson, A.) 530
Erythrocytes, ^{65}Zn in (Tupper, R., Watts, R. W. E. & Wormall, A.) 429
Escherichia coli, antibacterial activity of polyporenic acid *C* against (Marcus, S.) 516
Escherichia coli, growth on amino-acids as sole nitrogen source (Dawes, E. A.) v
Escherichia coli, reducing mechanisms of (Eddy, B. P.) 601
'Essential' amino-acids and amylase synthesis by pigeon pancreas (Hokin, L. E.) 216
Esterase, chymotrypsin as (Hartley, B. S. & Kilby, B. A.) 672
Ethanol, formation by fermentation of carbohydrates by rumen bacteria (Heald, P. J.) 503
Ethanol, formation by yeast from glucose (Trevelyan, W. E., Gammon, J. N., Wiggins, E. H. & Harrison, J. S.) 303
Ethanolamine, glycerylphosphoryl-, isolation from liver (Campbell, P. N. & Work, T. S.) 449
Ethanolamine in gramicidin (James, A. T. & Synge, R. L. M.) 109
Ethanolamine-*O*-phosphoric acid in rat brain (Ansell, G. B. & Dawson, R. M. C.) 241
Ethanolaminephosphoric acid, isolation from liver (Campbell, P. N. & Work, T. S.) 449
Ether, behaviour with insulin (Phillips, D. M. P.) 479
Euphorbiaceae, isolation of asperuloside from *Daphniphyllum macropodum* (Trim, A. R. & Hill, R.) 310

Evaporation device for small volumes of solution (Pirt, S. J. & Chain, E. B.) 716

Faeces, calf, nature and potency for different micro-organisms of the vitamin B_{12} activity of (Ford, J. E., Kon, S. K. & Porter, J. W. G.) ix
Faeces, carotene of, relation to diet (Chanda, R., Clapham, H. M., McNaught, M. L. & Owen, E. C.) 95
Fat depots of a pig fed on a diet rich in whale oil, composition of (Garton, G. A., Hilditch, T. P. & Meara, M. L.) 517
Fat utilization by muscle (Wertheimer, E. & Ben-Tor, V.) 573
Fatty acid synthesis by mammary tissue *in vitro*, isotope and respiration studies on (Balmain, J. H., Folley, S. J. & Glascock, R. F.) xxix
Fatty acids, branched-chain, of butterfat (Hansen, R. P. & Shorland, F. B.) 207, 358
Fatty acids, branched-chain, of ox fat (Hansen, R. P., Shorland, F. B. & Cooke, N. J.) 581
Fatty acids, long-chain unsaturated, essential for bacterial growth (Boughton, B. W. & Pollock, M. R.) xxxi
Fatty acids, separation and estimation by paper chromatography (Reid, R. L. & Lederer, M.) 60
Fatty acids, volatile, determination in blood (Scarisbrick, R.) xxxiv
Fatty acids, volatile, separation and micro-estimation from formic acid to dodecanoic acid (James, A. T. & Martin, A. J. P.) 679
Femur, samples of human bone, calcification of (Rogers, H. J., Weidmann, S. M. & Parkinson, A.) 537
Fermentation of glucose, synthesis of cell carbohydrates during (Trevelyan, W. E., Gammon, J. N., Wiggins, E. H. & Harrison, J. S.) 303
Fermentation process in tea manufacture (Roberts, E. A. H. & Wood, D. J.) 292
Ferricytochrome *c*-cyanide complex, absorption spectrum of (Tsou, C. L.) 493
Ferricytochrome *c*, reaction with cyanide (George, P. & Tsou, C. L.) 440
Ferrocyanide, action of peroxidase systems on (Kenten, R. H. & Mann, P. J. G.) 29
Fibrinoid, connective tissue, in rheumatic fever, chemistry of (Consden, R., Glynn, L. E. & Stanier, W. M.) xix
Fibrinokinase, formation of plasmin by the interaction with bovine plasminogen (Astrup, T.) 5
Fibroin, silk, transformation of *N*-acyl to *O*-acyl in the degradation of (Elliott, D. F.) 542
Fish tropomyosin and nucleotropomyosin, investigations on (Hamoir, G.) 140
Fission of peptide bonds, specific chemical methods for (Elliott, D. F.) 542
Flame photometer, improved (Leyton, L.) xl
Flavin-adenine dinucleotide as a possible group of xanthine oxidase (Morell, D. B.) vi
Fluorescence of micrococcin, effect of copper and 2:3-dimercaptopropanol on (Heatley, N. G. & Doery, H. M.) 247
Fluoride ions, activity in preventing coagulation (Lovelock, J. E. & Porterfield, B. M.) 415
Fluoride, inhibition of adenosinetriphosphatase of brain by (Gore, M. B. R.) 18
Fluorine, organically bound, direct spectrochemical microestimation using the hollow-cathode (Gillieson, A. H. C. P. & Newcombe, R. A.) xiv
Fluoroacetate poisoning, biochemistry of (Peters, R. A., Wakelin, R. W. & Buffa, P.) xiii
Fluorobenzene, comparison of the oxidation *in vivo* with that of benzene (Azouz, W. M., Parke, D. V. & Williams, R. T.) 702
Fluorobenzoic acids and amides (Bray, H. G., Clowes, R. C., Thorpe, W. V., White, K. & Wood, P. B.) 583
Fluorodinitrobenzene, action on silk fibroin and derivatives (Elliott, D. F.) 542
Fluorodinitrobenzene, application to the quantitative analysis of proteins (Mills, G. L.) 707
Formate, effect on dehydroascorbic acid reduction by *Escherichia coli* preparations (Eddy, B. P.) 601
Formic acid, formation by fermentation of carbohydrates by rumen bacteria (Heald, P. J.) 503
Formic acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
Fraction collector, automatic, for preparative chromatography (Edelman, J. & Martin, R. V.) xxi
Free radical hypothesis of aromatic oxidation *in vivo* (Robinson, D., Smith, J. N. & Williams, R. T.) 228
Frog, bile salts of (Haslewood, G. A. D.) xxxv
Fructosans of barley (Porter, H. K. & Edelman, J.) xxxiii
Fructose-1:6-diphosphate, spectrophotometric determination of (Slater, E. C.) vii
Fructose, effect on fat metabolism of diaphragm (Wertheimer, E. & Ben-Tor, V.) 573
Fructose, effect on pyruvate metabolism in *Lactobacillus arabinosus* (Nossal, P. M.) 591
Fructose-transferring enzyme, yeast invertase as (Bacon, J. S. D.) xviii
L-Fucose in Lewis blood-group substance (Annison, E. F. & Morgan, W. T. J.) 460
Fumarase, determination of fumarate and malate by (Nossal, P. M.) 349
Fumarate, effect on glucose and pyruvate metabolism of mammary gland slices (Terner, C.) 145
Fumarate, effect on respiration of *Chlorella* (Eny, D. M.) 559
Fumarate, estimation by malic decarboxylase of *Lactobacillus arabinosus* (Nossal, P. M.) 349
Fumarate in determination of malate by decarboxylase method (Nossal, P. M.) 349
Fungi, wood-rotting, biochemistry of (Birkinshaw, J. H., Morgan, E. N. & Findlay, W. P. K.) 509
Furan derivatives, glycosides of (Trim, A. R. & Hill, R.) 310
Furnace, micro-Carius (Pirt, S. J. & Chain, E. B.) 716

Galactose, effect on fat metabolism of diaphragm (Wertheimer, E. & Ben-Tor, V.) 573
Galactose, effect on pyruvate metabolism in *Lactobacillus arabinosus* (Nossal, P. M.) 591
D-Galactose in Lewis blood-group substance (Annison, E. F. & Morgan, W. T. J.) 460
Gallium aparine, accumulation and utilization of asperuloside in (Trim, A. R.) 319
Gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
Gastric juice, human, effect of heat on the microbiological and anti-anaemic properties of when mixed with vitamin B_{12} (Spray, G. H.) 587
Gastric mucosa, effect of urea on acid secretion of (Davies, R. E. & Kornberg, H. L.) 119
Gastric secretion of hydrochloric acid (Davies, R. E. & Edelman, J.) 190
Gastrophilus intestinalis, haemolymph of, malate and fumarate in (Nossal, P. M.) 349
Gelatin from bones, calcium/nitrogen ratio of (Rogers, H. J., Weidmann, S. M. & Parkinson, A.) 537
Germination factor, *Striga* (Brown, R., Johnson, A. W., Robinson, E. & Tyler, G. J.) 596
Gladiolic acid, dihydro-, metabolic product of *Penicillium gladioli* Machacek (Raistrick, H. & Ross, D. J.) 635
Gladiolic acid, metabolic product of *Penicillium gladioli* (Grove, J. F.) 648
Glaucium flavum, occurrence of fumarate in (Nossal, P. M.) 349

Glucan fraction from yeast (Trevelyan, W. E. & Harrison, J. S.) 298
Glucan in yeast during glucose fermentation (Trevelyan, W. E., Gammon, J. N., Wiggins, E. H. & Harrison, J. S.) 303
Glucosamine, estimation in the presence of protein (Johns, R. G. S. & Marrack, J. R.) xvii
D-Glucosamine, enzymic phosphorylation of (Grant, P. T. & Long, C.) xx
D-Glucosamine in Lewis blood-group substance (Annison, E. F. & Morgan, W. T. J.) 460
Glucose, biological catalysis of mutarotation of (Keilin, D. & Hartree, E. F.) 341
Glucose, effect on fat metabolism of diaphragm (Wertheimer, E. & Ben-Tor, V.) 573
Glucose, effect on malic decarboxylase (Nossal, P. M.) 349
Glucose, effect on the metabolism of pyruvate in *Lactobacillus arabinosus* (Nossal, P. M.) 591
Glucose, fermentation by bacteria (Heald, P. J.) 503
Glucose fermentation, synthesis of cell carbohydrates during (Trevelyan, W. E., Gammon, J. N., Wiggins, E. H. & Harrison, J. S.) 303
Glucose metabolism by mammalian cerebral cortex, electrical stimulation of (McIlwain, H., Anguiano, G. & Cheshire, J. D.) 12
Glucose metabolism of mammary gland slices (Terner, C.) 145
Glucose oxidase (notatin), specificity of (Keilin, D. & Hartree, E. F.) 331
Glucose, synthesis of glycogen from in the brown adipose tissue, enzymes concerned in (Creasey, N. H. & Gray, C. H.) 74
Glucose, transglycosidation from maltose or glycogen to riboflavin (Whitby, L. G.) 433
Glucose-6-phosphate, direct oxidation by enzymes of animal origin (Dickens, F. & Glock, G. E.) 81
Glucoside of riboflavin (Whitby, L. G.) 433
Glucosone, D- and L-, effect on yeast fermentation (Mitchell, I. L. S. & Bayne, S.) xxvii
D-Glucosone, specificity of the toxic effect on mice (Bayne, S.) xxvii
Glucuronic acid, fermentation by bacteria (Heald, P. J.) 503
β-Glucuronidase activity of chemically induced rat hepatoma (Mills, G. T. & Smith, E. E. B.) ix
β-Glucuronidase activity of locust crop fluid, colorimetric determination using 8-glucuronosidoquinoline as substrate (Robinson, D., Smith, J. N. & Williams, R. T.) xiii
β-Glucuronidase activity of rat liver, influence of partial hepatectomy on (Mills, G. T.) viii
β-Glucuronidase, inhibition by derivatives of saccharic acid (Levvy, G. A.) xv
β-Glucuronidase, ox liver, purification of (Smith, E. E. B.) viii
Glucuronides, elimination of fluorobenzene in urine as (Azouz, W. M., Parke, D. V. & Williams, R. T.) 702
Glucuronides, synthesis of (Marsh, C. A.) xi
Glucuronides of nitrophenols (Robinson, D., Smith, J. N. & Williams, R. T.) 221
8-Glucuronosidoquinoline, use as substrate in the colorimetric determination of the β-glucuronidase activity of locust crop fluid (Robinson, D., Smith, J. N. & Williams, R. T.) xiii
Glutamic acid, accumulation in *Micrococcus pyogenes* var. *aureus* influenced by other amino-acids (Gale, E. F. & van Halteren, M. B.) 34
§Glutamic acid, relation to the nervous system (Weil-Malherbe, H.) xxiii
Glycerol, effect on *in vitro* fatty acid synthesis by mammary tissue (Balmain, J. H., Folley, S. J. & Glascock, R. F.) xxix
Glycerylphosphorylethanolamine, isolation in liver (Campbell, P. N. & Work, T. S.) 449
Glycine, estimation in urine (Bray, H. G., Clowes, R. C., Thorpe, W. V., White, K. & Wood, P. B.) 583
Glycine, metabolic pool of, in rat (Arnstein, H. R. V. & Neuberger, A.) 154
Glycine, [^{15}N]- and [α-^{14}C]-, in metabolic experiments in rats (Arnstein, H. R. V. & Neuberger, A.) 154
Glycogen fraction from yeast (Trevelyan, W. E. & Harrison, J. S.) 298
Glycogen in yeast, digestion of (Trevelyan, W. E. & Harrison, J. S.) 298
Glycogen in yeast during glucose fermentation (Trevelyan, W. E., Gammon, J. N., Wiggins, E. H. & Harrison, J. S.) 303
Glycogen, synthesis from glucose in the brown adipose tissue, enzymes concerned in (Creasey, N. H. & Gray, C. H.) 74
Glycol, formation by fermentation of carbohydrates by rumen bacteria (Heald, P. J.) 503
Glycolysis, aerobic, of tissues, effect of electrical stimulation *in vitro* (Kratzing, C. C.) 253
Glycolysis of nervous tissue, effect of electrical stimulation on (McIlwain, H.) 132
Trans-*N*-glycosidase of *Lactobacillus helveticus* (Macnutt, W. S.) 384
Trans-*N*-glycosidase studied with radioactive adenine (Kalckar, H. M., Macnutt, W. S. & Hoff-Jørgensen, E.) 397
Glycosides, metabolism in higher plants, especially Rubiaceae (Trim, A. R.) 319
Glycosides related to aucubin and asperuloside, preparation and properties of (Trim, A. R. & Hill, R.) 310
Glycylglycine, combination of cupric ions with (Dobbie, H., Kermack, W. O. & Lees, H.) v
Goat, lactating, effect of thyroxine and thiouracil on the carotene metabolism in (Chanda, R., Clapham, H. M., McNaught, M. L. & Owen, E. C.) 95
Gramicidin, non-peptide linkages in (James, A. T. & Synge, R. L. M.) 109
Granules, acid phosphatase bearing, of liver tissue (Berthet, J., Berthet, L., Appelmans, F. & Duve, C. de) 182
Grass-water mixtures, formation of lactic acid in (Barnett, A. J. G.) i
Growth factors, bacterial, long-chain unsaturated fatty acids essential for (Boughton, B. W. & Pollock, M. R.) xxxi
Guanine, behaviour with deoxyribose transferring enzyme (Macnutt, W. S.) 384

Haematin iron of cytochrome *c*, linking of (George, P. & Tsou, C. L.) 440
Haemin, action on autoxidation of phospholipins (Lea, C. H. & Hawke, J. C.) 67
Haemoglobin, determination in blood by abridged photoelectric spectrophotometry (Nicholas, J. W.) 1
Haemolymph of *Gastrophilus intestinalis*, malate and fumarate in (Nossal, P. M.) 349
Halogen, organically bound, analysis of (Pirt, S. J. & Chain, E. B.) 716
Heart muscle, cytochrome *c* of (Tsou, C. L.) 493
Helvolic acid, relationship to cephalosporins (Burton, H. S. & Abraham, E. P.) 168
Hendecanoic acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
Hepatectomy, partial, influence on the β-glucuronidase activity of rat liver (Mills, G. T.) viii
Hepatoma, chemically induced in rat, β-glucuronidase activity of (Mills, G. T. & Smith, E. E. B.) ix
Heptanoic acid, micro-determination of (Reid, R. L. & Lederer, M.) 60

Heptanoic acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
Heterocyclic nitrogen compounds, colour reactions with aucubin, asperuloside and some of their derivatives (Trim, A. R. & Hill, R.) 310
Hexanoic acid, [*carboxy*-^{14}C], synthesis and degradation of (Hunter, G. D. & Popják, G.) 163
Hexanoic acid, degradation of (Hunter, G. D. & Popják, G.) 163
Hexanoic acid, micro-determination of (Reid, R. L. & Lederer, M.) 60
Hexanoic acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
Hexokinase activity of rat tissues (Long, C.) 407
Hexokinase in brown adipose tissue of the rat (Creasey, N. H. & Gray, C. H.) 74
Hexosemonophosphates, spectrophotometric determination of (Slater, E. C.) vii
Hexuronides, synthesis of (Marsh, C. A.) xi
Hippuric acid, halogen substitution in rabbit urines (Bray, H. G., Clowes, R. C., Thorpe, W. V., White, K. & Wood, P. B.) 583
Hippuric acid synthesis in the rat (Arnstein, H. R. V. & Neuberger, A.) 154
Histamine, metal-binding properties of, comparison with histidine (Albert, A.) 690
Histidine, metal-binding properties of, comparison with histamine (Albert, A.) 690
Histochemistry of a specific phosphatase (5-nucleotidase) (Pearse, A. G. E. & Reis, J. L.) 534
Hog gastric mucin, virulence-enhancing factors in for *Bacterium typhosum* (Smith, H., Harris-Smith, P. W. & Stanley, J. L.) 211
Homogenates of rat tissues, hexokinase activity of (Long, C.) 407
Homogentisic acid, absence from urine of rheumatic fever cases, of scorbutic guinea pigs and of rats with experimental methaemoglobinaemia (Consden, R., Forbes, H. A. W., Glynn, L. E. & Stanier, W. M.) 274
Homogentisic acid, paper chromatography, ultraviolet absorption spectra and oxidation of (Consden, R., Forbes, H. A. W., Glynn, L. E. & Stanier, W. M.) 274
Hormones, influence on liver catalase level in mice (Adams, D. H.) 486
Hydrochloric acid, gastric secretion in the frog, inhibition by sulphonamides (Davies, R. E. & Edelman, J.) 190
Hydrocyanic acid, reaction with ferricytochrome *c* (George, P. & Tsou, C. L.) 440
Hydrogen donators for dehydroascorbic acid (Eddy, B. P.) 601
Hydrogen peroxide and oxidations by peroxidase, effect of molybdate, tungstate and vanadate on (Kenten, R. H. & Mann, P. J. G.) 29
Hydrogen peroxide, production by plant enzyme systems (Kenten, R. H. & Mann, P. J. G.) 360
8-Hydroxyquinoline glucuronides, formation of (Robinson, D., Smith, J. N. & Williams, R. T.) xiii
Hypoxanthine, behaviour with deoxyribose transferring enzyme (Macnutt, W. S.) 384

Inhibition of enzymes by suramin (Wills, E. D.) 421
Inhibition of gastric secretion of hydrochloric acid by (Davies, R. E. & Edelman, J.) 190
Inhibitors, effect on the respiration of *Chlorella* (Eny, D. M.) 559
Inorganic phosphorus (and ^{32}P), precipitation of (Ennor, A. H. & Rosenberg, H.) 524
Insulin, activity of enzymic and acidic digests of (Phillips, D. M. P.) 479
Insulin, amino-acid analysis of (Mills, G. T.) 707
Insulin, effect on *in vitro* fatty acid synthesis by mammary tissue (Balmain, J. H., Folley, S. J. & Glascock, R. F.) xxix
Insulin, reactivity of α- and ε-amino groups with reducing sugars (Schwartz, H. M. & Lea, C. H.) 713
Insulin, reversible dissociation and minimum molecular weight of (Gutfreund, H.) 564
Invertase preparation, yeast, transfructosidation by (Bacon, J. S. D.) xviii
Iodine, organically bound, analysis of (Pirt, S. J. & Chain, E. B.) 716
Iodine uptake of thyroid (Arnott, D. G. & Doniach, I.) 473
Iodoacetate, inhibition of oxidation of phenylacetic acid by (Hockenhull, D. J. D., Walker, A. D., Wilkin, G. D. & Winder, F. G.) 605
Iodobenzene, elimination unchanged in expired air after administration to rabbits (Azouz, W. M., Parke, D. V. & Williams, R. T.) 702
§Ions, transport by nervous tissue, biochemical aspects of (Davies, R. E. & Krebs, H. A.) xxv
Iron deficiency and metabolism of *Aerobacter aerogenes* (Tissières, A.) 279
Iron, haematin, of cytochrome *c*, linking of (George, P. & Tsou, C. L.) 440
Isoelectric points of some enzymes, measurement of (Wills, E. D.) 421
§Isotopes, use in the study of the metabolism of the nervous system (Dawson, R. M. C.) xxv

Keto acids and amylase synthesis by pigeon pancreas (Hokin, L. E.) 216
Ketoses, colour reactions with aucubin, asperuloside and some of their derivatives (Trim, A. R. & Hill, R.) 310
Kidney, acetic acid content in various species (Ciaranfi, E. & Fonnesu, A.) 698
Kidney, guinea pig, effect of electrical stimulation on (Kratzing, C. C.) 253
Kinetic studies of cytochrome *c*-cyanide complex (George, P. & Tsou, C. L.) 440
Kinetics of 'acid' phosphatase action (Schønheyder, F.) 378
Kinetics of chymotrypsin action as diethyl *p*-nitrophenyl phosphate (Hartley, B. S. & Kilby, B. A.) 672
Kinetics of metabolism of substituted benzoic acids and amides by rabbit (Bray, H. G., Clowes, R. C., Thorpe, W. V., White, K. & Wood, P. B.) 583
Kitol, as impurity in vitamin A (Cama, H. R., Collins, F. D. & Morton, R. A.) 48

Labiatae, colour reactions of glycosides of (Trim, A. R. & Hill, R.) 310
Lactate, effect on dehydroascorbic acid reduction by *Escherichia coli* preparations (Eddy, B. P.) 601
Lactate, effect on oxygen uptake of *Chlorella* (Eny, D. M.) 559
Lactation, effect of thyroxine, thiouracil and stilboestrol on the metabolism of carotene and vitamin A in goats during (Chanda, R., Clapham, H. M. & Owen, E. C.) iii
Lactic acid, formation by fermentation of carbohydrates by rumen bacteria (Heald, P. J.) 503
Lactic acid formation in cerebral cortex, effect of electrical stimulation on (McIlwain, H., Anguiano, G. & Cheshire, J. D.) 12
Lactic acid, formation in grass-water mixtures (Barnett, A. J. G.) i
Lactic acid formation of nervous tissue, effect of electrical stimulation on (McIlwain, H.) 132
Lactobacillus arabinosus, effects of glucose and potassium on the metabolism of pyruvate in (Nossal, P. M.) 591
Lactobacillus arabinosus, estimation of L-malate and fumarate by malic decarboxylase of (Nossal, P. M.) 349

Lactobacillus casei, modified medium for, for the assay of B vitamins (Clegg, K. M., Kodicek, E. & Mistry, S. P.) 326
Lactobacillus delbrueckii, deoxyriboside transfer by enzyme of (Macnutt, W. S.) 384
Lactobacillus helveticus enzyme preparation catalysing transfer of deoxyribosyl group (Macnutt, W. S.) 384
Lactobacillus helveticus, transfer of deoxyribose by enzyme preparation from (Kalckar, H. M., Macnutt, W. S. & Hoff-Jørgensen, E.) 397
Lactobacillus leichmanii 313, growth of (Lees, K. A. & Tootill, J. P. R.) 455
Lavender leaves, catalysis of oxidation of mono- and di-amines by extracts of (Kenten, R. H. & Mann, P. J. G.) 360
Lewis human blood-group substance, immunochemistry of (Annison, E. F. & Morgan, W. T. J.) 460
Lipids in developing salmon eggs (Glover, M., Morton, R. A. & Rosen, D. G.) 425
§Lipids of the central nervous system (Sloane Stanley, G. H.) xxiv
Lipoproteins, extraction and splitting of (Lea, C. H. & Hawke, J. C.) 67
Lipovitellin, autoxidation as a whole and of split products with and without pro-oxidants (Lea, C. H. & Hawke, J. C.) 67
Lipovitellin, splitting by ethanol at low temperatures (Lea, C. H. & Hawke, J. C.) 67
Liver, acetic acid in various species (Ciaranfi, E. & Fonnesu, A.) 698
Liver catalase activity in mice, hormonal factors influencing (Adams, D. H.) 486
Liver cell, localization of amine oxidase in (Hawkins, J.) 577
Liver, determination of the specific activity of the inorganic phosphate fraction of trichloroacetic acid extracts of (Ennor, A. H. & Rosenberg, H.) 524
Liver, ergothioneine in, after administration to rats (Heath, H., Rimington, C., Searle, C. E. & Lawson, A.) 530
Liver extracts, formation of riboflavinyl glucoside by (Whitby, L. G.) 433
Liver, fractionation of the nitrogenous water-soluble constituents of (Campbell, P. N. & Work, T. S.) 449
Liver β-glucuronidase, ox, purification of (Smith, E. E. B.) viii
Liver, rat, influence of partial hepatectomy on the β-glucuronidase activity of (Mills, G. T.) viii
Liver tissue, rat, linkage between acid phosphatase and mitochondria in (Berthet, J., Berthet, L., Appelmans, F. & Duve, C. de) 182
Localization of amine oxidase in mitochondria (Hawkins, J.) 577
Locust crop fluid, colorimetric determination of the β-glucuronidase activity of, using 8-glucuronosidoquinoline as substrate (Robinson, D., Smith, J. N. & Williams, R. T.) xiii
Loganiaceae, isolation of aucubin from *Buddleia globosa* (Trim, A. R. & Hill, R.) 310
Lung, guinea pig, effect of electrical stimulation on (Kratzing, C. C.) 253
Lupin seedlings, catalysis of oxidation of mono- and di-amines by extracts of (Kenten, R. H. & Mann, P. J. G.) 360
Lycopene in *Phycomyces blakesleeanus* (Goodwin, T. W.) 550
Lysine, synthesis by bacteria during incubation of rumen contents *in vitro* (McNaught, M. L.) i
Lysozyme, amino-acid analysis of (Mills, G. T.) 707

Magnesium, activation of adenosinetriphosphatase of brain by (Gore, M. B. R.) 18
Magnesium ions and coagulation of plasma (Lovelock, J. E. & Porterfield, B. M.) 415
Malate, effect on oxygen uptake of *Chlorella* (Eny, D. M.) 559
L-Malate, estimation by malic decarboxylase of *Lactobacillus arabinosus* (Nossal, P. M.) 349
Malic decarboxylase of *Lactobacillus arabinosus*, estimation of L-malate and fumarate by (Nossal, P. M.) 349
Malonate, effect on respiration of *Chlorella* (Eny, D. M.) 559
Malonate, effect on respiration of mammary gland (Terner, C.) 145
Mammary gland of the rabbit, phospholipin metabolism during lactation (Garton, G. A. & Popják, G.) xvi
Mammary gland, pyruvate metabolism in (Terner, C.) 145
Mammary tissue, isotope and respiration studies on *in vitro* fatty acid synthesis by (Balmain, J. H., Folley, S. J. & Glascock, R. F.) xxix
Manganese in colorimetric test for hydrogen peroxide in plants (Kenten, R. H. & Mann, P. J. G.) 360
Mannan fraction from yeast (Trevelyan, W. E. & Harrison, J. S.) 298
Mannan in yeast during glucose fermentation (Trevelyan, W. E., Gammon, J. N., Wiggins, E. H. & Harrison, J. S.) 303
Mastitis, effect on the phosphatase and phosphorylated esters in cow's milk (Chanda, R., Owen, E. C. & Watts, P. S.) ii
Medium, modified, for *Lactobacillus casei* for the assay of B vitamins (Clegg, K. M., Kodicek, E. & Mistry, S.) 326
Mercapturic acid, elimination of fluorobenzene in urine as (Azouz, W. M., Parke, D. V. & Williams, R. T.) 702
Mercury, inhibition of oxidation of phenylacetic acid by (Hockenhull, D. J. D., Walker, A. D., Wilkin, G. D. & Winder, F. G.) 605
Metabolism of slices of cerebral cortex, electrical stimulation of (McIlwain, H.) 132
Metal deficiency and metabolism of *Aerobacter aerogenes* (Tissières, A.) 279
Metals, combination of peptides with (Dobbie, H., Kermack, W. O. & Lees, H.) v
Metals, trace, avidity of naturally occurring substances for (Albert, A.) 690
Methaemoglobinaemia, absence of homogentisic acid from urine of (Consden, R., Forbes, H. A. W., Glynn, L. E. & Stanier, W. M.) 274
L-Methionine labelled with ^{35}S, biosynthesis of (Williams, R. B. & Dawson, R. M. C.) xxi
Methyl groups, choline, in the rat, effect of vitamin B_{12} on the biosynthesis of (Arnstein, H. R. V. & Neuberger, A.) xxxviii
α-Methylbutyric acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
5-Methylcytosine, deoxyriboside from, by enzymic transfer (Macnutt, W. S.) 384
5-Methylcytosine deoxyriboside, transfer of purine or pyrimidine groups by bacterial enzyme (Macnutt, W. S.) 384
Methylene blue, reduction by cell-free formic dehydrogenase preparations (Eddy, B. P.) 601
γ-Methylvaleric acid (*iso*caproic acid), micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
Mice, specificity of the toxic effect of D-glucosone in (Bayne, S.) xxvii
Micrococcin, preparation and properties of (Heatley, N. G. & Doery, H. M.) 247
Micrococcus pyogenes var. *aureus*, accumulation of glutamic acid in, and formation of extracellular peptides by (Gale, E. F. & van Halteren, M. B.) 34
Micrococcus sp., antibiotic micrococcin from (Heatley, N. G. & Doery, H. M.) 247

Micro-organisms, biochemistry of (Birkinshaw, J. H., Raistrick, H., Ross, D. J. & Stickings, C. E.) 610; (Birkinshaw, J. H., Raistrick, H. & Ross, D. J.) 630; (Raistrick, H. & Ross, D. J.) 635
Micro-organisms, nature and potency of the vitamin B_{12} activity of calf rumen contents and faeces for (Ford, J. E., Kon, S. K. & Porter, J. W. G.) ix
Milk, cow's, effect of mastitis on the phosphatase and phosphate esters in (Chanda, R., Owen, E. C. & Watts, P. S.) ii
Milk, thiocyanates in (Wokes, F., Wedgwood, P. & Wyatt, J.) xix
Milk, xanthine oxidase of (Klenow, H.) 404
Mitochondria, linkage with acid phosphatase in rat-liver tissue (Berthet, J., Berthet, L., Appelmans, F. & Duve, C. de) 182
Mitochondria, localization in (Hawkins, J.) 577
Molybdate, action of peroxidase systems on (Kenten, R. H. & Mann, P. J. G.) 29
Muscle, acetic acid content in various species (Ciaranfi, E. & Fonnesu, A.) 698
Muscle, fat metabolism in (Wertheimer, E. & Ben-Tor, V.) 573
Muscle, fish, tropomyosin of (Hamoir, G.) 140
Muscle, heart, cytochrome *c* of (Tsou, C. L.) 493
Muscle, phosphate esters in, study by means of paper chromatography (Caldwell, P. C.) xxxv
Muscle potassium, bicarbonate ion and (Creese, R.) xviii
Mutarotase in *Penicillium notatum* (Keilin, D. & Hartree, E. F.) 341
Mutarotation of glucose, biological catalysis of (Keilin, D. & Hartree, E. F.) 341
Mutarotation of glucose under influence of notatin (Keilin, D. & Hartree, E. F.) 331
Mycobacteria, antibacterial activity against polyporenic acid *C* (Marcus, S.) 516
Mycophenolic acid, metabolic product of *Penicillium brevi-compactum* Dierckx, molecular constitution of (Birkinshaw, J. H., Raistrick, H. & Ross, D. J.) 630
Mycophenolic acid, structural relationship of the phenol $C_{10}H_{10}O_3$ to (Grove, J. F.) 648
Myrrhis odorata, occurrence of fumarate in (Nossal, P. M.) 349

Naphthalene, excretion of 1-naphthol and of 1:2-dihydroxy-1:2-dihydronaphthalene by rats injected with (Boyland, E. & Wiltshire, G. H.) xxxvii
1-Naphthol, excretion by rats injected with naphthalene (Boyland, E. & Wiltshire, G. H.) xxxvii
Necta cinnabarina, absence of polyenes in cultures of (Goodwin, T. W.) 550
Neoretinene$_1$, preparation of (Dalvi, P. D. & Morton, R. A.) 43
Neovitamin A, as impurity in vitamin A (Cama, H. R., Collins, F. D. & Morton, R. A.) 48
Neovitamin A esters, preparation of (Dalvi, P. D. & Morton, R. A.) 43
§Nervous system, relation of glutamic acid to (Weil-Malherbe, H.) xxiii
§Nervous system, use of isotopes in the study of the metabolism of (Dawson, R. M. C.) xxv
§Nervous tissue, biochemical aspects of the transport of ions by (Davies, R. E. & Krebs, H. A.) xxv
§Nervous tissue, metabolism and function of (Symposium) xxiii
§Nervous tissues, carbohydrate metabolism of (Coxon, R. V.) xxiii
Nickel, avidity of amino-acids for (Albert, A.) 690
Nicotinamide, inhibition of enzyme system by (Dickens, F. & Glock, G. E.) 81
Nicotinic acid, assay using *Lactobacillus casei* (Clegg, K. M., Kodicek, E. & Mistry, S. P.) 326
Nicotinic acid, effect on malic decarboxylase (Nossal, P. M.) 349
Nitrite, effect on oxidation of homogentisate (Consden, R., Forbes, H. A. W., Glynn, L. E. & Stanier, W. M.) 274
Nitrobenzene, metabolism in the rabbit (Robinson, D., Smith, J. N. & Williams, R. T.) 228
Nitrobenzene, reduction *in vivo* (Robinson, D., Smith, J. N. & Williams, R. T.) 228
Nitrocatechol from nitrobenzene in rabbit (Robinson, D., Smith, J. N. & Williams, R. T.) 228
Nitrogen/calcium ratio in bone (Rogers, H. J., Weidmann, S. M. & Parkinson, A.) 537
Nitrogen compounds, water-soluble, of the liver fractionation of (Campbell, P. N. & Work, T. S.) 449
Nitrogen metabolism of *Penicillium notatum* (Mackenzie, R. M. & Cook, R. P.) iii
Nitrophenols from nitrobenzene in rabbit (Robinson, D., Smith, J. N. & Williams, R. T.) 228
Nitrophenols, metabolism and glucuronides of (Robinson, D., Smith, J. N. & Williams, R. T.) 221
p-Nitrophenyl acetate as substrate of chymotrypsin (Hartley, B. S. & Kilby, B. A.) 672
p-Nitrophenyl ethyl carbonate as substrate of chymotrypsin (Hartley, B. S. & Kilby, B. A.) 672
Nonanoic acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
'Non-essential' amino-acids and amylase synthesis by pigeon pancreas (Hokin, L. E.) 216
Notatin, specificity of (Keilin, D. & Hartree, E. F.) 331
Nuclear proteins, basic, amino-acid composition of (Eadie, E. J. & Leaf, G.) xxxiv
Nucleic acid, yeast, precipitation of enzymes by (Dickens, F. & Glock, G. E.) 81
5-Nucleotidase, blood levels of (Dixon, T. F.) xxxii
5-Nucleotidase, histochemistry of (Pearse, A. G. E. & Reis, J. L.) 534
§Nucleotides of the central nervous system (McIlwain, H.) xxiv
Nucleotropomyosin, fish, investigations on (Hamoir, G.) 140

Octanoic acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
Octyl alcohol, effect on metabolism of *Aerobacter aerogenes* (Tissières, A.) 279
Oenanthic acid *see* Heptanoic acid
Oil, whale, composition of the depot fats of a pig fed on a diet rich in (Garton, G. A., Hilditch, T. P. & Meara, M. L.) 517
Optical rotations, anomalous, of triacetyl *β*-*o*-nitrophenyl-glucuronide and its methyl ester (Robinson, D., Smith, J. N. & Williams, R. T.) 221
Organic phosphates, determination by use of ^{32}P of turnover rates of (Ennor, A. H. & Rosenberg, H.) 524
Osmotic pressure of insulin (Gutfreund, H.) 564
Osmotic properties of acid phosphatase bearing granules of liver tissue (Berthet, J., Berthet, L., Appelmans, F. & Duve, C. de) 182
Ox fat, branched-chain fatty acids of (Hansen, R. P., Shorland, F. B. & Cooke, N. J.) 581
Oxalate ions, activity in preventing coagulation (Lovelock, J. E. & Porterfield, B. M.) 415
Oxaloacetate in determination of malate by decarboxylase method (Nossal, P. M.) 349
Oxidase, amine, localization in the liver cell (Hawkins, J.) 577
Oxidase, glucose, specificity of (Keilin, D. & Hartree, E. F.) 331
Oxidase, xanthine, of milk (Klenow, H.) 404
Oxidase, xanthine, prosthetic group of (Morell, D. B.) vi
Oxidation, biological, and persulphate oxidation (Robinson, D., Smith, J. N. & Williams, R. T.) 221

Oxidation, biological, of nitrophenols (Robinson, D., Smith, J. N. & Williams, R. T.) 221
Oxidation *in vivo* of fluorobenzene and benzene (Azouz, W. M., Parke, D. V. & Williams, R. T.) 702
Oxidative metabolism, aromatic, of certain benzene ring compounds by soil bacteria (Smith, B. S. W., Jones, J. D. & Evans, W. C.) xxviii
Oxygen in assay medium and growth of *Lactobacillus leichmanii* (Lees, K. A. & Tootill, J. P. R.) 455
Oxyntic cells, carbonic anhydrase and acid-base balance in (Davies, R. E. & Edelman, J.) 190

Pancreas slices, amylase synthesis by (Hokin, L. E.) 216
Paper chromatography, methods applicable to the study of steroids in mammalian blood and tissues (Bush, I. E.) 370
Paper chromatography, study of the phosphate esters in muscle by means of (Caldwell, P. C.) xxxv
Paper chromatography, use in relating the fractions of baker's yeast to the known constituents of yeast (Trevelyan, W. E. & Harrison, J. S.) 298
Particulate matter, role in virulence enhancement (Smith, H., Harris-Smith, P. W. & Stanley, J. L.) 211
Partition chromatography, anomalies in (Lester Smith, E.) xxxvi
Pea seedlings, amine oxidase in extracts of (Kenten, R. H. & Mann, P. J. G.) 360
Pea seedlings, catalysis of oxidation of mono- and di-amines by extracts of (Kenten, R. H. & Mann, P. J. G.) 360
Pectic enzymes of the fungus *Byssochlamys fulva* (Reid, W. W.) 289
Pectin esterase from *Byssochlamys fulva* (Reid, W. W.) 289
Penicillium brevi-compactum Dierckx, molecular constitution of mycophenolic acid, a metabolic product of (Birkinshaw, J. H., Raistrick, H. & Ross, D. J.) 630
Penicillium chrysogenum Q 176, oxidation of phenylacetic acid by (Hockenhull, D. J. D., Walker, A. D., Wilkin, G. D. & Winder, F. G.) 605
Penicillium cyclopodium Westling, metabolic products of (Birkinshaw, J. H., Raistrick, H., Ross, D. J. & Stickings, C. E.) 610
Penicillium gladioli, gladiolic acid, a metabolic product of (Grove, J. F.) 648
Penicillium gladioli Machacek, dihydrogladiolic acid, a metabolic product of (Raistrick, H. & Ross, D. J.) 635
Penicillium notatum, acceleration of mutarotation of glucose by (Keilin, D. & Hartree, E. F.) 341
Penicillium notatum, nitrogen metabolism of (Mackenzie, R. M. & Cook, R. P.) iii
Pentose-5-phosphates, direct oxidation by enzymes of animal origin (Dickens, F. & Glock, G. E.) 81
Pentoses, fermentation by bacteria from the rumen contents of sheep (Heald, P. J.) 503
Pepsin, action on insulin (Phillips, D. M. P.) 479
Peptide bonds, specific chemical methods for the fission of (Elliott, D. F.) 542
Peptides, combination with metals (Dobbie, H., Kermack, W. O. & Lees, H.) v
Peptides, extracellular, formation by *Micrococcus pyogenes* var. *aureus* from glutamic acid and cysteine, alanine or glycine, or from glycine (Gale, E. F. & van Halteren, M. B.) 34
Peptides from gramicidin (James, A. T. & Synge, R. L. M.) 109
Perhydroxylation hypothesis of aromatic oxidation *in vivo* (Robinson, D., Smith, J. N. & Williams, R. T.) 228
Periodate staining method of Hotchkiss, use in relating the fractions of baker's yeast to the known constituents of yeast (Trevelyan, W. E. & Harrison, J. S.) 298
Peroxidase systems, action on ferrocyanide, molybdate, tungstate and vanadate (Kenten, R. H. & Mann, P. J. G.) 29
Persulphate oxidation and biological oxidation (Robinson, D., Smith, J. N. & Williams, R. T.) 221
Phenols and peroxidase catalysis of oxidation of ferrocyanide by hydrogen peroxide (Kenten, R. H. & Mann, P. J. G.) 29
Phenols, colour reactions in aucubin, asperuloside and some of their derivatives (Trim, A. R. & Hill, R.) 310
Phenyl phosphate, enzymic decomposition of (Schønheyder, F.) 378
Phenylacetaldehyde, oxidation by plant extracts (Kenten, R. H. & Mann, P. J. G.) 360
Phenylacetic acid, oxidation by *Penicillium chrysogenum* (Hockenhull, D. J. D., Walker, A. D., Wilkin, G. D. & Winder, F. G.) 605
β-Phenylethylamine, oxidation by plant amine oxidase (Kenten, R. H. & Mann, P. J. G.) 360
Phenylglucuronides, rotation and structure of (Kamil, I. A., Smith, J. N. & Williams, R. T.) 235
Phosphatase, acid, linkage with mitochondria in rat-liver tissue (Berthet, J., Berthet, L., Appelmans, F. & Duve, C. de) 182
Phosphatase action, 'acid', kinetics of (Schønheyder, F.) 378
Phosphatase of cow milk (Chanda, R. & Owen, E. C.) 100
Phosphatase in cow's milk, effect of mastitis on (Chanda, R., Owen, E. C. & Watts, P. S.) ii
Phosphatase, specific, histochemistry of (Pearse, A. G. E. & Reis, J. L.) 534
Phosphate esters in cow's milk, effect of mastitis on (Chanda, R., Owen, E. C. & Watts, P. S.) ii
Phosphate esters in muscle, study by means of paper chromatography (Caldwell, P. C.) xxxv
Phosphates in mammalian brain, actions of electrical stimulation and of 2:4-dinitrophenol on (McIlwain, H. & Gore, M. B. R.) 24
Phosphates of monosaccharides, oxidation by enzymes of animal origin (Dickens, F. & Glock, G. E.) 81
§Phosphates of the central nervous system (McIlwain, H.) xxiv
Phosphates, organic, determination by spectrophotometric methods (Slater, E. C.) vii
Phosphates, organic, of brain (Ansell, G. B. & Dawson, R. M. C.) 241
Phosphatidylethanolamine of brain (Ansell, G. B. & Dawson, R. M. C.) 241
Phosphoglucomutase in brown adipose tissue of the rat (Creasey, N. H. & Gray, C. H.) 74
6-Phosphogluconate, direct oxidation by enzymes of animal origin (Dickens, F. & Glock, G. E.) 81
Phospholipin metabolism in the mammary gland of the rabbit during lactation (Garton, G. A. & Popják, G.) xvi
Phospholipins, autoxidation of (Lea, C. H. & Hawke, J. C.) 67
Phospholipins in developing salmon eggs (Glover, M., Morton, R. A. & Rosen, D. G.) 425
Phosphoric acid, ethanolamine derivative in brain (Ansell, G. B. & Dawson, R. M. C.) 241
Phosphorus compounds, enzyme inhibition by (Hartley, B. S. & Kilby, B. A.) 672
Phosphorus of cow milk (Chanda, R. & Owen, E. C.) 100
Phosphorylase in brown adipose tissue of the rat (Creasey, N. H. & Gray, C. H.) 74
Phosphorylation, enzymic, of D-glucosamine (Grant, P. T. & Long, C.) xx
Phosphorylation, enzymic, studies involving (Long, C.) 407

Photo-cell, circuit for automatic control of titrations (James, A. T. & Martin, A. J. P.) 679
Photometer, improved flame (Leyton, L.) xl
Phthalide, gladiolic acid as derivative of (Grove, J. F.) 648
Phycomyces blakesleeanus, carotene formation by (Glover, J., Goodwin, T. W. & Lijinsky, W.) x; (Goodwin, T. W. & Lijinsky, W.) 268
Phycomyces blakesleeanus, minor polyene components of (Goodwin, T. W.) 550
Phytoene in *Phycomyces blakesleeanus* (Goodwin, T. W.) 550
Phytofluene in *Phycomyces blakesleeanus* (Goodwin, T. W.) 550
Pig fat, composition when fed on a diet rich in whale oil (Garton, G. A., Hilditch, T. P. & Meara, M. L.) 517
L-Pipecolinic acid, naturally occurring (Morrison, R. I.) xiv
Pituitary gland, 5-nucleotidase in (Pearse, A. G. E. & Reis, J. L.) 534
Plant cells, glycosides in (Trim, A. R.) 319
Plant thiaminases (Evans, W. C. & Jones, N. R.) xxviii
Plants, higher, proteins obtained from (Fowden, L.) 355
Plasma cholinesterases, regeneration in humans and dogs following poisoning by bis(*iso*propylamino)fluorophosphine oxide (Callaway, S., Davies, D. R. & Risley, J. E.) xxx
Plasmin, formation by the interaction of fibrinokinase with bovine plasminogen (Astrup, T.) 5
Plasminogen, bovine, formation of plasmin by the interaction of fibrinokinase with (Astrup, T.) 5
Polyenes in fungi (Goodwin, T. W.) 550
Polygalacturonase from *Byssochlamys fulva* (Reid, W. W.) 289
Polynucleotides and end groups in ribonucleic acids (Markham, R. & Smith, J. D.) xxxviii
Polyphenolic substances of cacao, changes in during fermentation (Forsyth, W. G. C.) iii
Polyporenic acid *C*, a metabolic product of *Polyporus benzoinus* (Birkinshaw, J. H., Morgan, E. N. & Findlay, W. P. K.) 509
Polyporenic acid *C*, antibacterial activity of (Marcus, S.) 516
Polyporus benzoinus (Wahl.) Fr., metabolic products of (Birkinshaw, J. H., Morgan, E. N. & Findlay, W. P. K.) 509
Polysaccharide, synthesis by the phosphorylase of brown adipose tissue (Creasey, N. H. & Gray, C. H.) 74
Porphin octa-acetic acid from turacin (Nicholas, R. E. H. & Rimington, C.) 194
Porphyria, congenital, porphyrins excreted in the urine by a case of (Rimington, C. & Miles, P. A.) 202
Porphyrins excreted in the urine by a case of congenital porphyria (Rimington, C. & Miles, P. A.) 202
Potassium, effect on the metabolism of pyruvate in *Lactobacillus arabinosus* (Nossal, P. M.) 591
Potassium, muscle, bicarbonate ion and (Creese, R.) xviii
Potential gradients, apparatus for applying to portions of tissue (McIlwain, H.) 132
PR enzyme in extracts of brown adipose tissue (Creasey, N. H. & Gray, C. H.) 74
Propionic acid, micro-determination of (Reid, R. L. & Lederer, M.) 60
Propionic acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
Prosthetic group of xanthine oxidase (Morell, D. B.) vi
Proteins, application of fluorodinitrobenzene to the quantitative analysis of proteins (Mills, G. L.) 707
Proteins, basic nuclear, amino-composition of (Eadie, E. J. & Leaf, G.) xxxiv
Proteins, behaviour at the liquid-liquid interface (Cheesman, D. F.) 667
Proteins, effect on autoxidation of phospholipins (Lea, C. H. & Hawke, J. C.) 67
Proteins of *Chlorella*, composition of (Fowden, L.) 355
Proteins, reaction with reducing sugars in the 'dry' state (Schwartz, H. M. & Lea, C. H.) 713
Proteins, serum, determination of levels in cattle (Garner, R. J.) 439
Proteolysis, esterase activity and (Hartley, B. S. & Kilby, B. A.) 672
Proteolysis in brain tissue (Ansell, G. B., Williams, R. B. & Richter, D.) xxix
Proteolytic enzyme in blood, activation by animal tissue (Astrup, T.) 5
Pteridines, assay using *Lactobacillus casei* (Clegg, K. M., Kodicek, E. & Mistry, S. P.) 326
Pteroylglutamic acid, assay with *Lactobacillus casei* (Clegg, K. M., Kodicek, E. & Mistry, S. P.) 326
Purification of biological extracts for paper chromatography of steroids (Bush, I. E.) 370
Purines of ribonucleic acid of nucleotropomyosin (Hamoir, G.) 140
Purines, transfer of the deoxyribosyl group from one to another (Macnutt, W. S.) 384
Putrescine, oxidation by plant amine oxidase (Kenten, R. H. & Mann, P. J. G.) 360
Pyrimidines of ribonucleic acid of nucleotropomyosin (Hamoir, G.) 140
Pyrimidines, transfer of the deoxyribosyl group from one to another (Macnutt, W. S.) 384
Pyrolaceae, colour reactions of glycosides of (Trim, A. R. & Hill, R.) 310
Pyrophosphatase, inorganic, of brain (Gore, M. B. R.) 18
Pyruvate, effect on respiration of *Chlorella* (Eny, D. M.) 559
Pyruvate in determination of malate by decarboxylase method (Nossal, P. M.) 349
Pyruvate metabolism in *Lactobacillus arabinosus*, effects of glucose and potassium on the metabolism of (Nossal, P. M.) 591
Pyruvate metabolism in the mammary gland (Terner, C.) 145
Pyruvic acid, effect on fat metabolism of diaphragm (Wertheimer, E. & Ben-Tor, V.) 573

Rabbit, fate of certain organic acids and amides in (Bray, H. G., Clowes, R. C., Thorpe, W. V., White, K. & Wood, P. B.) 583
Rana temporaria, bile salts of (Haslewood, G. A. D.) xxxv
Rat, hexokinase activity of tissue homogenates of (Long, C.) 407
Rat-liver tissue, acid phosphatase distribution of (Berthet, J. & Duve, C. de) 174
Rat-liver tissue, mitochondria-linked acid phosphatase in (Berthet, J. & Duve, C. de) 174
Rat-liver tissue, phosphatase, acid, distribution of (Berthet, J. & Duve, C. de) 174
Rats, effects of administering ergothioneine to (Heath, H., Rimington, C., Searle, C. E. & Lawson, A.) 530
Red cell cholinesterases, regeneration in humans and dogs following poisoning by bis(*iso*propylamino)fluorophosphine oxide (Callaway, S., Davies, D. R. & Risley, J. E.) xxx
Red clover leaves, catalysis of oxidation of mono- and diamines by extracts of (Kenten, R. H. & Mann, P. J. G.) 360
Reducing mechanisms of *Escherichia coli* (Eddy, B. P.) 601
Resorcinol and related compounds, antithyroid activity of (Arnott, D. G. & Doniach, I.) 473
Respiration, absence in fermenting tea leaf (Roberts E. A. H. & Wood, D. J.) 292

Respiration in cerebral cortex, effect of electrical stimulation on (McIlwain, H., Anguiano, G. & Cheshire, J. D.) 12
Respiration of *Aerobacter aerogenes*, cytochrome system of (Tissières, A.) 279
Respiration of *Chlorella*, effect of organic acids, inhibitors and enzymes on (Eny, D. M.) 559
Respiration of gastric mucosa, effect of sulphonamides on (Davies, R. E. & Edelman, J.) 190
Respiration of nervous tissue, effect of electrical stimulation on (McIlwain, H.) 132
Respiration of tissues, effect of electrical stimulation *in vitro* (Kratzing, C. C.) 253
Rheumatic fever, absence of homogentisic acid from urine of (Consden, R., Forbes, H. A. W., Glynn, L. E. & Stanier, W. M.) 274
Rheumatic fever, chemistry of connective tissue fibrinoid in (Consden, R., Glynn, L. E. & Stanier, W. M.) xix
Riboflavin, assay using *Lactobacillus casei* (Clegg, K. M., Kodicek, E. & Mistry, S. P.) 326
Riboflavinyl glucoside, a new derivative of riboflavin (Whitby, L. G.) 433
Ribonucleic acid of nucleotropomyosin (Hamoir, G.) 140
Ribonucleic acids, polynucleotides and end groups in (Markham, R. & Smith, J. D.) xxxviii
D-Ribose derivatives, supposed formation from D-glucose derivatives (Dickens, F. & Glock, G. E.) 81
Rotation and structure of phenylglucuronides (Kamil, I. A., Smith, J. N. & Williams, R. T.) 235
Rotations, optical, anomalous, of triacetyl β-*o*-nitrophenylglucuronide and its methyl ester (Robinson, D., Smith, J. N. & Williams, R. T.) 221
Rotting of wood by fungi, biochemistry of (Birkinshaw, J. H., Morgan, E. N. & Findlay, W. P. K.) 509
Rubia tinctorum, accumulation and utilization of asperuloside in (Trim, A. R.) 319
Rubiaceae, accumulation and utilization of asperuloside in (Trim, A. R.) 319
Rubiaceae, colour reactions of glycosides of (Trim, A. R. & Hill, R.) 310
Rumen contents, calf, nature and potency for different micro-organisms of the vitamin B_{12} activity of (Ford, J. E., Kon, S. K. & Porter, J. W. G.) ix
Rumen contents of sheep, fermentation of pentoses and uronic acids by bacteria from (Heald, P. J.) 503
Rumen contents, synthesis of lysine by bacteria during *in vitro* incubation of (McNaught, M. L.) i

Saccharic acid, inhibition of β-glucuronidase by derivatives of (Levvy, G. A.) xv
Saccharomyces cerevisiae, effect of cocaine on the metabolism of (Ryman, B. E. & Walsh, E. O'F.) 570
Salmine, amino-acid analysis of (Mills, G. T.) 707
Salmon (*Salmo salar*), astaxanthin, cholesterol and lipins in developing eggs of (Glover, M., Morton, R. A. & Rosen, D. G.) 425
Sarcoma, fowl Rous, enzymes of (Dickens, F. & Glock, G. E.) 81
Scorbutic guinea pigs, absence of homogentisic acid from urine of (Consden, R., Forbes, H. A. W., Glynn, L. E. & Stanier, W. M.) 274
Scrophulariaceae, colour reactions of glycosides of (Trim, A. R. & Hill, R.) 310
Sedimentation of insulin (Gutfreund, H.) 564
Serine, rearrangements of derivatives of (Elliott, D. F.) 542
Serum protein levels in cattle, determination (Garner, R. J.) 439
Sheep, fermentation of pentoses and uronic acids by bacteria from the rumen contents of (Heald, P. J.) 503
Silk fibroin, transformation of *N*-acyl to *O*-acyl in the degradation of (Elliott, D. F.) 542
Silver, precipitated metallic, determination of halogen by (Pirt, S. J. & Chain, E. B.) 716
Snake venoms (or cobra venom), cholinesterase of (Mounter, L. A.) 122
Soil bacteria, aromatic oxidative metabolism of certain benzene ring compounds by (Smith, B. S. W., Jones, J. D. & Evans, W. C.) xxviii
Specific activity, errors in determining ^{32}P (Ennor, A. H. & Rosenberg, H.) 524
Specific activity of inorganic phosphate fraction of trichloroacetic acid extracts of liver, determination of (Ennor, A. H. & Rosenberg, H.) 524
Spectrophotometer, calibration with potassium chromate and dichromate solutions (Cama, H. R., Collins, F. D. & Morton, R. A.) 48
Spectrophotometry, abridged photoelectric, determination of haemoglobin in blood by (Nicholas, J. W.) 1
Staphylococcus aureus, action of cephalosporin P_1 against (Burton, H. S. & Abraham, E. P.) 168
Staphylococcus aureus, antibacterial activity against polyporenic acid *C* (Marcus, S.) 516
Staphylococcus aureus see also Micrococcus pyogenes var. *aureus*
Starch, electrophoretic fractionation of hydrolysis products of (Mould, D. L. & Synge, R. L. M.) xi
Stellatae, accumulation and utilization of asperuloside in (Trim, A. R.) 319
Steroids in mammalian blood and tissues, methods of paper chromatography applicable to the study of (Bush, I. E.) 370
Stilboestrol, effect on the metabolism of carotene and vitamin A in lactating goats (Chanda, R., Clapham, H. M. & Owen, E. C.) iii
Striga germination factor (Brown, R., Johnson, A. W., Robinson, E. & Tyler, G. J.) 596
Succinate, effect on metabolism of *Aerobacter aerogenes* (Tissières, A.) 279
Succinate, effect on respiration of *Chlorella* (Eny, D. M.) 559
Succinic dehydrogenase, effect on respiration of *Chlorella* (Eny, D. M.) 559
Sugar, blood, colour fading in the Folin and Wu estimation of (Lehmann, H. & Silk, E.) xxxi
Sugars, reducing, reaction with proteins in the 'dry' state (Schwartz, H. M. & Lea, C. H.) 713
Sulphates as metabolites of nitrophenols (Robinson, D., Smith, J. N. & Williams, R. T.) 221
Sulphates, ethereal, elimination of fluorobenzene in urine as (Azouz, W. M., Parke, D. V. & Williams, R. T.) 702
Sulphonamides, inhibition of gastric secretion of hydrochloric acid by (Davies, R. E. & Edelman, J.) 190
Supplementary enzyme in brown adipose tissue (Creasey, N. H. & Gray, C. H.) 74
Suramin, enzyme inhibition by (Wills, E. D.) 421

Taurine, isolation in liver (Campbell, P. N. & Work, T. S.) 449
Tea manufacture, fermentation process in (Roberts, E. A. H. & Wood, D. J.) 292
Teeth, enamel of (Stack, M. V.) xxxix
Testicular factors influencing liver catalase level in mice (Adams, D. H.) 486
Testosterone, influence on liver catalase activity in mice (Adams, D. H.) 486
Thermobacterium acidophilus, assay of deoxyribonucleic acid by (Hoff-Jørgensen, E.) 400
Thermobacterium acidophilus R 26, deoxyriboside transfer by enzyme of (Macnutt, W. S.) 384
Thiaminases of plants (Evans, W. C. & Jones, N. R.) xxviii
Thiocyanates in milk (Wokes, F., Wedgwood, P. & Wyatt, J.) xix

Thiol group reactants, inhibition of adenosinetriphosphatase of brain by (Gore, M. B. R.) 18
Thiouracil, effect on cow milk (Chanda, R. & Owen, E. C.) 100
Thiouracil, effect on the metabolism of carotene and vitamin A in lactating goats (Chanda, R., Clapham, H. M. & Owen, E. C.) iii
Thiouracil, effects on carotene metabolism in lactating cows and goats (Chanda, R., Clapham, H. M., McNaught, M. L. & Owen, E. C.) 95
Thymine, deoxyriboside from by enzymic transfer (Macnutt, W. S.) 384
Thyroid, radioactive iodine uptake of (Arnott, D. G. & Doniach, I.) 473
Thyroxine, acetic acid analogue of, synthesis of (Harington, C. R. & Pitt-Rivers, R.) 438
Thyroxine, effect on cow's milk (Chanda, R. & Owen, E. C.) 100
Thyroxine, effect on the metabolism of carotene and vitamin A in lactating goats (Chanda, R., Clapham, H. M. & Owen, E. C.) iii
Thyroxine, effects on carotene metabolism in lactating cows and goats (Chanda, R., Clapham, H. M., McNaught, M. L. & Owen, E. C.) 95
Tissue, apparatus for applying potential gradients to (McIlwain, H.) 132
Toxicity of nitrophenols and metabolism (Robinson, D., Smith, J. N. & Williams, R. T.) 221
Toxicity, physical, in aqueous solutions (McGowan, J. C.) vii
Transfructosidation by a yeast invertase preparation (Bacon, J. S. D.) xviii
Transglycosidation of glucose to riboflavin by liver enzyme (Whitby, L. G.) 433
Translocation, possible of glycosides in plants (Trim, A. R.) 319
§Transport of ions by nervous tissue, biochemical aspects of (Davies, R. E. & Krebs, H. A.) xxv
Trehalose fraction from yeast (Trevelyan, W. E. & Harrison, J. S.) 298
Trehalose in yeast during glucose fermentation (Trevelyan, W. E., Gammon, J. N., Wiggins, E. H. & Harrison, J. S.) 303
3:4:5-Tricarboxy-2:6-dimethoxyphenylglyoxylic acid, mycophenolic acid a derivative of (Birkinshaw, J. H., Raistrick, H. & Ross, D. J.) 630
Trichloroacetic acid, behaviour with insulin (Phillips, D. M. P.) 479
Trichloroacetic acid extracts of liver, determination of the specific activity of the inorganic phosphate fraction of (Ennor, A. H. & Rosenberg, H.) 524
Triterpenoid acid, a metabolic product of *Polyporus benzoinus* (Birkinshaw, J. H., Morgan, E. N. & Findlay, W. P. K.) 509
Triterpenoid acid (polyporenic acid *C*), antibacterial activity of (Marcus, S.) 516
Tritium, determination by combustion in organic compounds (Payne, P. R., Campbell, I. G. & White, D. F.) 500
Tropomyosin, fish, investigations on (Hamoir, G.) 140
Trypsin, action on insulin (Phillips, D. M. P.) 479
Tryptophan, assay using *Lactobacillus casei* (Clegg, K. M., Kodicek, E. & Mistry, S. P.) 326
Tryptophan, dinitrophenyl derivatives of (James, A. T. & Synge, R. L. M.) 109
Tungstate, action of peroxidase systems on (Kenten, R. H. & Mann, P. J. G.) 29
Turacin, study of (Nicholas, R. E. H. & Rimington, C.) 194
Turnover rates of organic phosphates, determination by use of ^{32}P (Ennor, A. H. & Rosenberg, H.) 524
Tyrosine content of bovine serum proteins (Garner, R. J.) 439
Ultraviolet absorption of micrococcin, effect of copper and 2:3-dimercaptopropanol on (Heatley, N. G. & Doery, H. M.) 247
*Ultraviolet radiation, detection of chromatogram spots by means of (Beaven, G. H., Holiday, E. R. & Johnson, E. A.) xxi
Ungulinic acid, a metabolic product of *Polyporus benzoinus* (Birkinshaw, J. H., Morgan, E. N. & Findlay, W. P. K.) 509
Ungulinic acid, antibacterial activity of (Marcus, S.) 516
Unimolecular layers of protein (Cheesman, D. F.) 667
Uracil, deoxyriboside from by enzymic transfer (Macnutt, W. S.) 384
Uracil deoxyriboside, transfer of pyrimidine group by bacterial enzyme (Macnutt, W. S.) 384
Urea, behaviour with insulin (Phillips, D. M. P.) 479
Urea, effect on respiration and acid secretion by gastric mucosa (Davies, R. E. & Kornberg, H. L.) 119
Urease, gastric, of frog (Davies, R. E. & Kornberg, H. L.) 119
Urease, gastric, role in acid secretion (Davies, R. E. & Kornberg, H. L.) 119
Uric acid, behaviour with deoxyribose transferring enzyme (Macnutt, W. S.) 384
Urine, ergothioneine in after administration to rats (Heath, H., Rimington, C., Searle, C. E. & Lawson, A.) 530
Urine of a case of congenital porphyria, porphyrins excreted in (Rimington, C. & Miles, P. A.) 202
Uronic acids, fermentation by bacteria from the rumen contents of sheep (Heald, P. J.) 503
Uroporphyrin III, isolation of (Nicholas, R. E. H. & Rimington, C.) 194

Valeric acid, micro-determination of (Reid, R. L. & Lederer, M.) 60
n-Valeric acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
*iso*Valeric acid, micro-estimation by gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) 679
Vanadate, action of peroxidase systems on (Kenten, R. H. & Mann, P. J. G.) 29
Virulence-enhancing factors, assay of (Smith, H., Harris-Smith, P. W. & Stanley, J. L.) 211
Virulence-enhancing factors, synergic effect of (Smith, H., Harris-Smith, P. W. & Stanley, J. L.) 211
Viscosity, role in virulence enhancement (Smith, H., Harris-Smith, P. W. & Stanley, J. L.) 211
Vitamin A, absence from developing salmon eggs (Glover, M., Morton, R. A. & Rosen, D. G.) 425
Vitamin A acetate, synthetic and natural, absorption curves of (Cama, H. R., Collins, F. D. & Morton, R. A.) 48
Vitamin A, *cis-trans*, evidence for the existence of (Dalvi, P. D. & Morton, R. A.) 43
Vitamin A alcohol, synthetic and natural, absorption curves of (Cama, H. R., Collins, F. D. & Morton, R. A.) 48
Vitamin A, effect of thyroxine, thiouracil and stilboestrol on the metabolism in lactating goats (Chanda, R., Clapham, H. M. & Owen, E. C.) iii
Vitamin A_1, absorption curves for (Cama, H. R., Collins, F. D. & Morton, R. A.) 48
Vitamin A_2, absorption curves for (Cama, H. R., Collins, F. D. & Morton, R. A.) 48
Vitamins B, modified medium for *Lactobacillus casei* for the assay of (Clegg, K. M., Kodicek, E. & Mistry, S. P. 326
Vitamin B_{12} activity of calf rumen contents and faeces, nature and potency for different micro-organisms of (Ford, J. E., Kon, S. K. & Porter, J. W. G.) ix
Vitamin B_{12}, assay of (Lees, K. A. & Tootill, J. P. R.) 455

Vitamin B_{12}, effect of heat on the microbiological and anti-anaemic properties of human gastric juice mixed with (Spray, G. H.) 587
Vitamin B_{12}, effect on the biosynthesis of choline methyl groups in the rat (Arnstein, H. R. V. & Neuberger, A.) xxxviii
Vitamin B_{12} *see also* Cobalamin
Vitamin B_{12}, nature of (Lester Smith, E.) xxxvi

Walden inversion, supposed, in enzymic pentose formation (Dickens, F. & Glock, G. E.) 81
Water, non-available, in precipitates formed by antigens and antibodies (Marrack, J. R., Grant, R. A. & Johns, R. G. S.) xvii
Whale oil, composition of the depot fats of a pig fed on a diet rich in (Garton, G. A., Hilditch, T. P. & Meara, M. L.) 517
Wood-rotting fungi, biochemistry of (Birkinshaw, J. H., Morgan, E. N. & Findlay, W. P. K.) 509

Xanthine, behaviour with deoxyribose transferring enzyme (Macnutt, W. S.) 384
Xanthine oxidase of milk (Klenow, H.) 404
Xanthine oxidase, prosthetic group of (Morell, D. B.) vi
X-ray diffraction spectra of C_{17} branched-chain acids in butterfat (Hansen, R. P. & Shorland, F. B.) 207
X-ray photographs of bacterial cellulose (Kaushal, R., Walker, T. K. & Drummond, D. G.) 128
Xylose, fermentation by bacteria (Heald, P. J.) 503

Yeast, brewer's, proteins found in (Fowden, L.) 355
Yeast, effect of cocaine on the metabolism of (Ryman, B. E. & Walsh, E. O'F.) 570
Yeast fermentation, effect of D- and L-glucosone on (Mitchell, I. L. S. & Bayne, S.) xxvii
Yeast invertase preparation, transfructosidation by (Bacon, J. S. D.) xviii
Yeast metabolism, studies on (Trevelyan, W. E. & Harrison, J. S.) 298; (Trevelyan, W. E., Gammon, J. N., Wiggins, E. H. & Harrison, J. S.) 303

Zinc-glycine complex, use in labelling blood cells with radioactive zinc (Tupper, R., Watts, R. W. E. & Wormall, A.) 429
Zinc in carbonic anhydrase, observations on (Tupper, R., Watts, R. W. E. & Wormall, A.) 429
